

Green Fields/Green Towns Update: Fall 2009

***Horsham Township Powerline Trail Phase II • Municipal Trail Option
Grant Approved 2008 • 1 mile Main Trail plus Various Side Trails
Construction Started Fall 2009***

Top - Trail easement on PECO corridor combines swath of old fields and open meadows edged with thick woodlands

Bottom - PECO corridor running across the entire township provides excellent opportunity for multi-use trail

GF/GT Municipal Trail Grant:

● **County Grant:** \$1,422,526

● **Total Project Cost:** \$1,778,157

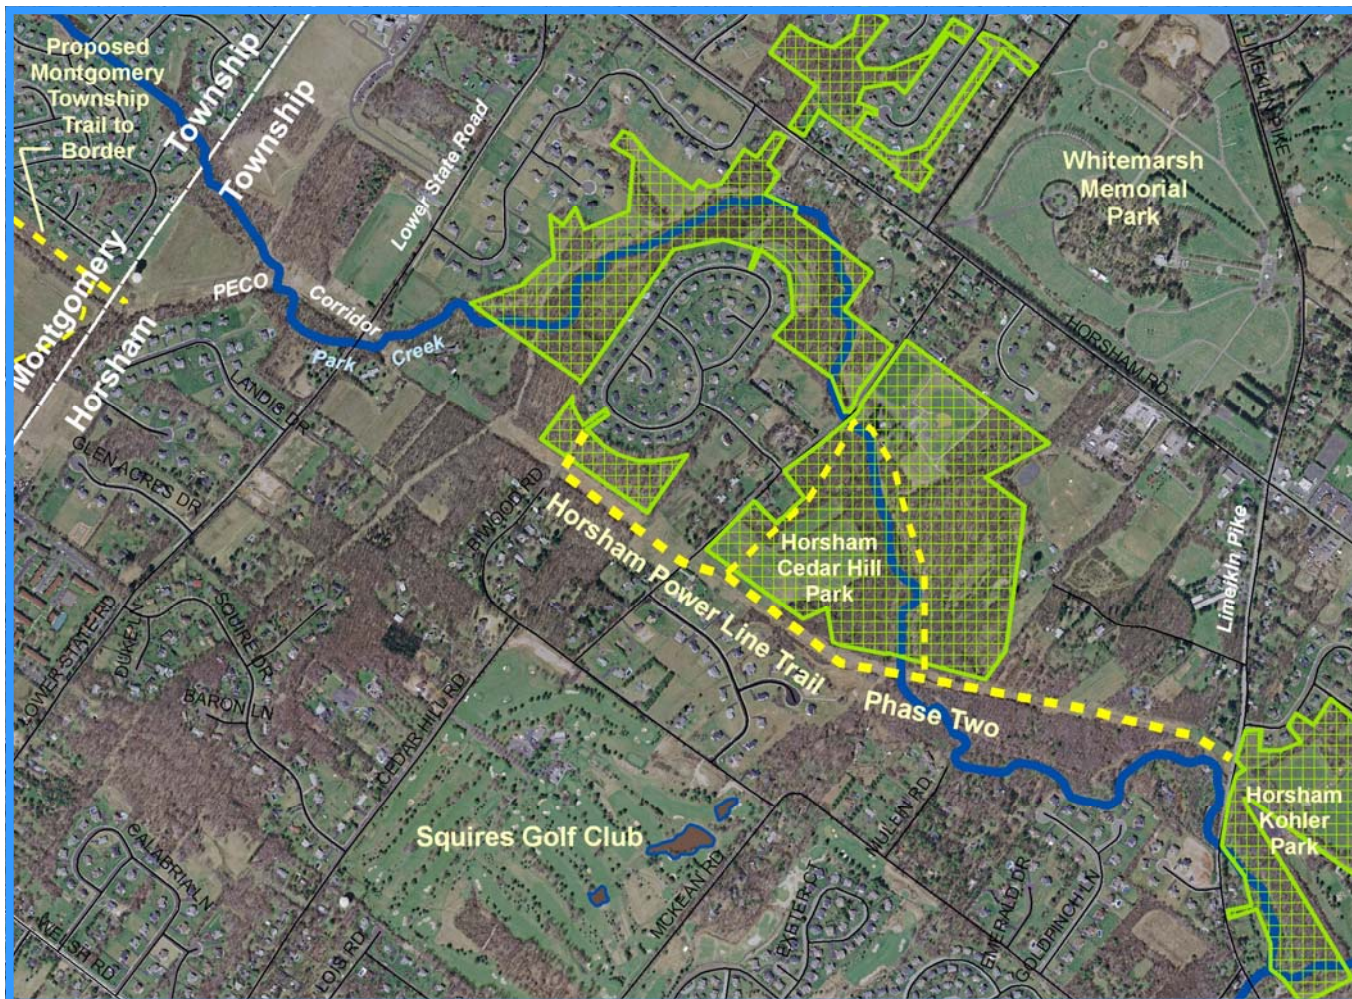

● **Matching Funds:** \$355,631 including in-kind labor

Project Description:

- Paved multi-use trail along PECO transmission corridor from Limekiln Pike to Biwood Road
- Additional side trails will connect main trail to various township parks and neighborhoods
- Extension of heavily-used existing Powerline Trail through eastern half of the Township
- Project includes a variety of landscapes including crossings of wet areas and tributary creeks
- Final phase of trail will eventually connect to proposed Powerline Trail in Montgomery Township
