Public Safety News Information Sheet

What is Public Safety News?

Public Safety News, often referred to as PSN, is the monthly newsletter produced by the Montgomery County Department of Public Safety. It has been published since 2002 and is now in its 19th year in print.

Public Safety News contains important announcements from the Department of Public Safety for municipal responders, as well as training announcements, career opportunities, and other significant updates.

What are the Monthly Notices?

The Monthly Notices are formatted as a merged PDF that includes announcements for community events, training/education opportunities, fundraisers, and job offerings. Some content is provided by the Department of Public Safety, but most is received from municipalities and partner agencies. The notices are posted on the Department of Public Safety website along with PSN.

How do I receive alerts when PSN is available?

PSN and the Monthly Notices are typically made available on the department website on the last business day of each month. An email alert is sent to subscribers as soon as the newest editions are posted. The email contains a link to access the newsletter, as well as a listing of articles in the current edition. If you would like to begin receiving alerts, please contact us using the information below.

How do I access past Public Safety News or Monthly Notices?

Past editions of the Public Safety News and Monthly Notices are available on the following webpage: https://www.montcopa.org/1527/Public-Safety-News.

My organization or department has something to share. How do we do it?

The Department of Public Safety has a lot of information to share, but we are always looking for news from our municipal responders! If you have a story, training or career opportunity, or newsworthy event, please contact us using the information below.

I have some additional questions. How do I contact you?

The Montgomery County Fire Academy presents “An Elevator Near Miss”
Wednesday November 11, 2020
7pm to 9pm (online)

Presenter: Derek Thomas
Many commercial buildings and multiple occupancies dwellings use elevators to transport occupants and visitors throughout the building. Occasionally an elevator will malfunction trapping the occupants. Safely removing the passengers requires that firefighters take steps that are often overlooked. Derek will address the procedures required to safely remove passengers from a stopped elevator.

To register: Complete a Montgomery County Fire Academy registration form. Course name- Elevator seminar. No course number. Course date: November 11, 2020

Limited enrollment - No charge

**In light of COVID-19 and for the safety of our guests and speakers, EDITS has been postponed until 2022. We will continue to monitor the situation and take necessary precautions as we move forward in the planning process. Thank you for your understanding.
General Announcements and Information
Montgomery County
Response Staffing Number Standard

A Recommended Practice

By the Montgomery County Fire Service

George Wilmot, President
Montgomery County
Fire Chiefs Association

John R. Waters, President
Montgomery County
Municipal Fire Officers Association

December 2016
ABSTRACT

We, the representatives of the fire service of Montgomery County, recommend that a standard and consistent system for announcing staffing levels on responding apparatus be adopted county-wide.

Further, we recommend that only the number interior qualified firefighters aboard responding apparatus be announced.

In addition, we recommend that “interior qualified firefighters” be defined as firefighters who have trained to the IFSAC / ProBoard Firefighter 1 standard\(^1\) or equivalent training, and that “equivalent training” be defined as successful completion of current or former interior firefighter courses, covering the subjects listed in Chapter 5 of NFPA 1001\(^2\), whether attained in Pennsylvania or any other state.

---

\(^2\) Ibid.
PURPOSE

- The intent of paper is to recommend a common standard to be used by all fire service providers responding within Montgomery County by providing a consistent and accurate count of available Interior Qualified Firefighters responding to emergency incidents.
- The standard is intended to provide the incident commander with the number of available Interior Qualified Firefighters responding to his/her incident.

LIMITATIONS

- The intent of this paper is not to recommend apparatus staffing levels during emergency response. That is at the sole discretion of the responding entity and its political subdivision.³

THE CURRENT SYSTEM

Adequacies

- When used, the current system does provide a number of emergency responders on any given piece of fire apparatus responding to an incident.

Deficiencies

- The current system is not adopted county-wide.
- In some cases, companies count the driver and other cases, companies do not, leading to inconsistency.
- The issue of “who counts” is determined on an individual company basis, also leading to inconsistency.

SCOPE

- It is intended that this standard apply to all fire service providers responding to emergency incidents within Montgomery County.

DEFINITIONS

- **Interior Qualified** – firefighters who have trained to IFSAC / ProBoard Firefighter 1 standard\(^4\) or equivalent training.
- **Equivalent Training** – current or former interior firefighter courses, covering the subjects listed in Chapter 5 of NFPA 1001\(^5\), whether attained in Pennsylvania or any other state.

RECOMMENDED STANDARD

1. When a piece of fire apparatus responds, they shall identify the unit and the number of interior qualified firefighters aboard.
   
   a. Example – When “Engine 1” responds with a driver / operator and 3 firefighters, all of whom are interior qualified, they would announce “Engine 1 responding with 4.”

2. Non-interior qualified firefighters shall not be included in the count.
   
   a. Example – When “Engine 1” responds with a driver / operator and 3 firefighters, and all but one are interior qualified, they would announce “Engine 1 responding with 3.”

3. When a piece of fire apparatus responds with only a driver / operator, that unit should announce “Engine 1 responding driver only.”

4. When a piece of apparatus responds with only non-interior qualified firefighters, that unit should respond “driver only.”
   
   a. Example – When “Engine 1” responds with a driver / operator and 3 firefighters, none of whom are interior qualified, they would announce “Engine 1 responding driver only.”

5. The terms “undermanned” or “understaffed” shall not be used.

\(^4\) Ibid.
\(^5\) Ibid.
RESPONSIBILITY

- All officers and members of fire service providers, who are operating on Montgomery County's radio system, including out-of-county resources responding into Montgomery County, are expected to adhere to this standard.

END
**This change is effective as of March 16, 2018**

Wolf Administration Recognizes Emergency Medical Services Award Recipients

Harrisburg, PA – The Wolf Administration last evening joined the Pennsylvania Emergency Health Services Council in recognizing individuals, groups and organizations for their commitment and dedication to delivering the highest quality of pre-hospital medical care available to Pennsylvanians.

“Our first responders are on the frontlines of helping Pennsylvanians during a time of need,” Secretary of Health Dr. Rachel Levine said. “These award recipients are an example of the fantastic public servants in Pennsylvania who dedicate their lives to helping others and ensuring they receive the best care possible. The Wolf Administration is committed to ensuring emergency medical service providers have the resources they need to assist Pennsylvanians.”

The award recipients were announced Tuesday at the 43rd annual Pennsylvania Emergency Medical Services Conference, held virtually. Award categories include clinical performance, education, communications, outstanding system contributions, innovation and organization-level operations. The 2020 award recipients are:

- **ALS Practitioner of the Year** – Nathan Shorter, Lancaster EMS, Lancaster County;
- **BLS Practitioner of the Year** – Joy Byler, Big Valley Ambulance, Mifflin County;
- **EMS Educator of the Year** – David Lindell, Allegheny Health Prehospital Services, Allegheny County;
- **EMS Communications Award** – Shari Spicher, Mifflin County;
- **Amanda Wertz Memorial EMS for Children Award** – Jeffrey Meyer, City of Pittsburgh EMS, Allegheny County;
- **David J. Lindstrom EMS Innovation Award** – Alvin Wang, MD, Montgomery County EMS, Montgomery County;
- **Dr. George Moerkirk Memorial Contribution to EMS Award** – Leo Scaccia, Brandywine Hospital ALS unit, Chester County;
- **EMS Agency of the Year (Large Volume Division)** – Northwest Emergency Medical Services, Lancaster County; and
- **EMS Agency of the Year (Small Volume Division)** – Cranberry Township Emergency Medical Services, Butler County.

For more information on Emergency Medical Services, visit the Department of Health website at [www.health.pa.gov](http://www.health.pa.gov) or follow us on [Facebook](http://Facebook) and [Twitter](http://Twitter).

###
Frequently Asked Questions about NARCAN® (naloxone HCl) Nasal Spray

Shelf-Life Extension and Updated Storage Conditions

What is NARCAN® Nasal Spray?

- NARCAN® Nasal Spray is a prescription medicine used for the treatment of a known or suspected opioid overdose emergency with signs of breathing problems and severe sleepiness or not being able to respond.
- NARCAN® Nasal Spray is to be given right away and does not take the place of emergency medical care. Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray, even if the person wakes up.

Please see Important Safety Information below

Who should not use NARCAN® Nasal Spray?

Do not use NARCAN® Nasal Spray if you are allergic to naloxone hydrochloride or any of the ingredients in NARCAN® Nasal Spray.

What is the new shelf life of NARCAN® Nasal Spray?

NARCAN® expiration will now be changed from 24 to 36 months.

Will current, on-market NARCAN® Nasal Spray’s expiration be extended an additional 12 months?

The FDA has approved the 36-month shelf life after completing a comprehensive review of data which included all versions of NARCAN®. Since this study was conducted using all versions of NARCAN®, any product previously released with a 24-month shelf life can now be extended for an additional 12 months.

What are the updated storage conditions for NARCAN® Nasal Spray?

Current Label: Store NARCAN® Nasal Spray in the blister and cartons provided.
Store at controlled room temperature 68°F to 77 °F (20°C to 25°C).
Excursions permitted between 41°F to 104°F (5°C to 40°C).
Do not freeze or expose to excessive heat above 104°F (40°C). Protect from light. NARCAN® Nasal Spray freezes at temperatures below 5°F (-15°C). If this happens, the device will not spray. Leave the device at room temperature for 15 minutes to thaw the medicine before use.

New Label: Store NARCAN® Nasal Spray in the blister and cartons provided.
Store below 77°F (25°C). Excursions permitted up to 104°F (40°C).
Do not freeze or expose to excessive heat above 104°F (40°C). Protect from light.
NARCAN® Nasal Spray freezes at temperatures below 5°F (-15°C). If this happens, the device will not spray. If NARCAN® Nasal Spray is frozen and is needed in an emergency, do NOT wait for NARCAN® Nasal Spray to thaw. Get emergency medical help right away. However, NARCAN® Nasal Spray may be thawed by allowing it to sit at room temperature for 15 minutes, and it may still be used if it has been thawed after being previously frozen.

Important Safety Information for NARCAN® Nasal Spray

What is the most important information I should know about NARCAN® Nasal Spray?

NARCAN® Nasal Spray is used to temporarily reverse the effects of opioid medicines. The medicine in NARCAN® Nasal Spray has no effect in people who are not taking opioid medicines. Always carry NARCAN® Nasal Spray with you in case of an opioid overdose.

1. Use NARCAN® Nasal Spray right away if you or your caregiver think signs or symptoms of an opioid overdose are present, even if you are not sure, because an opioid overdose can cause severe injury or death. Signs and symptoms of an opioid overdose may include:
   - unusual sleepiness and you are not able to awaken the person with a loud voice or by rubbing firmly on the middle of their chest (sternum)
   - breathing problems including slow or shallow breathing in someone difficult to awaken or who looks like they are not breathing
• the black circle in the center of the colored part of the eye (pupil) is very small, sometimes called “pinpoint pupils,” in someone difficult to awaken

2. Family members, caregivers, or other people who may have to use NARCAN® Nasal Spray in an opioid overdose should know where NARCAN® Nasal Spray is stored and how to give NARCAN® Nasal Spray before an opioid overdose happens.

3. Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray. Rescue breathing or CPR (cardiopulmonary resuscitation) may be given while waiting for emergency medical help.

4. The signs and symptoms of an opioid overdose can return after NARCAN® Nasal Spray is given. If this happens, give another dose after 2 to 3 minutes using a new NARCAN® Nasal Spray device and watch the person closely until emergency help is received.

What should I tell my healthcare provider before using NARCAN® Nasal Spray?
Before using NARCAN® Nasal Spray, tell your healthcare provider about all of your medical conditions, including if you:

• have heart problems
• are pregnant or plan to become pregnant. Use of NARCAN® Nasal Spray may cause withdrawal symptoms in your unborn baby. Your unborn baby should be examined by a healthcare provider right away after you use NARCAN® Nasal Spray.
• are breastfeeding or plan to breastfeed. It is not known if NARCAN® Nasal Spray passes into your breast milk.

Tell your healthcare provider about the medicines you take, including prescription and over-the-counter medicines, drugs, vitamins, and herbal supplements.

What are the possible side effects of NARCAN® Nasal Spray?
NARCAN® Nasal Spray may cause serious side effects, including:
Sudden opioid withdrawal symptoms which can be severe. In someone who has been using opioids regularly, opioid withdrawal symptoms can happen suddenly after receiving NARCAN® Nasal Spray and may include:

• body aches
• diarrhea
• increased heart rate
• fever
• runny nose
• sneezing
• goose bumps
• sweating
• yawning
• nausea or vomiting
• nervousness
• restlessness or irritability
• shivering or trembling
• stomach cramping
• weakness
• increased blood pressure

Some patients may show aggressive behavior upon abrupt reversal of an opioid overdose.
In infants under 4 weeks old who have been receiving opioids regularly, sudden opioid withdrawal may be life-threatening if not treated the right way. Signs and symptoms include: seizures, crying more than usual, and increased reflexes.

These are not all of the possible side effects of NARCAN® Nasal Spray. Call your doctor for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

Trump Administration Announces $20 Billion in New Phase 3 Provider Relief Funding

Today, under the leadership of President Trump, the U.S. Department of Health and Human Services (HHS), through the Health Resources and Services Administration (HRSA), is announcing $20 billion in new funding for providers on the frontlines of the coronavirus pandemic. Under this Phase 3 General Distribution allocation, providers that have already received Provider Relief Fund payments will be invited to apply for additional funding that considers financial losses and changes in operating expenses caused by the coronavirus. Previously ineligible providers, such as those who began practicing in 2020 will also be invited to apply, and an expanded group of behavioral health providers confronting the emergence of increased mental health and substance use issues exacerbated by the pandemic will also be eligible for relief payments.

Providers can begin applying for funds on Monday, October 5, 2020.

“HHS has worked to ensure that all American healthcare providers receive support from the Provider Relief Fund in a fast and fair way, and this new round helps ensure that we are reaching America’s essential behavioral health providers and takes into account losses and expenses relating to coronavirus,” said HHS Secretary Alex Azar. “We’ve worked with all of the resources we have across HHS to ensure that America’s heroic healthcare providers know they can apply for support.”

HHS has already issued over $100 billion in relief funding to providers through prior distributions. Still, HHS recognizes that many providers continue to struggle financially from COVID-19’s impact. For eligible providers, the new Phase 3 General Distribution is designed to balance an equitable payment of 2 percent of annual revenue from patient care for all applicants plus an add-on payment to account for revenue losses and expenses attributable to COVID-19.

Further, HHS recognizes constraints such as the stay-at-home orders and social isolation have been particularly difficult for many Americans. A recent Centers for Disease Control and Prevention (CDC) report found the prevalence of symptoms of anxiety disorder in the second quarter of 2020 was approximately three times those that reported in the second quarter of 2019 (25.5% versus 8.1%); and the prevalence of depressive disorder was approximately four times that reported in the second quarter of 2019 (24.3% versus 6.5%). Our behavioral health providers have shouldered the burden of responding
and confronting this expanded challenge triggered by the pandemic. When traditional face-to-face counseling was restricted and new telehealth flexibilities were put in place in response to the pandemic, many behavioral health providers invested in and adopted telehealth technologies to continue providing patient care. While some Medicare or Medicaid behavioral health providers have already received prior General Distribution payments, others have not. Working with the Substance Abuse and Mental Health Services Administration (SAMHSA), HRSA developed a list of the nation’s behavioral health providers now eligible for funding, which includes, for example, addiction counseling centers, mental health counselors, and psychiatrists.

**Eligibility**

HHS is making a large number of providers eligible for Phase 3 General Distribution funding, including:

- Providers who previously received, rejected or accepted a General Distribution Provider Relief Fund payment. Providers that have already received payments of approximately 2% of annual revenue from patient care may submit more information to become eligible for an additional payment.

- Behavioral Health providers, including those that previously received funding and new providers.

- Healthcare providers that began practicing January 1, 2020 through March 31, 2020. This includes Medicare, Medicaid, CHIP, dentists, assisted living facilities and behavioral health providers.

**Payment Methodology – Apply Early**

All eligible providers will be considered for payment against the below criteria.

1. All provider submissions will be reviewed to confirm they have received a Provider Relief Fund payment equal to approximately 2 percent of patient care revenue from prior general distributions. Applicants that have not yet received Relief Fund payments of 2 percent of patient revenue will receive a payment that, when combined with prior payments (if any), equals 2 percent of patient care revenue.

2. With the remaining balance of the $20 billion budget, HRSA will then calculate an equitable add-on payment that considers the following:
   - A provider’s change in operating revenues from patient care
   - A provider’s change in operating expenses from patient care, including expenses incurred related to coronavirus
   - Payments already received through prior Provider Relief Fund distributions.
We know providers want to receive payments shortly after submitting their information. However, this distribution requires cooperation on the part of all applicants. Again, HHS is urging all eligible providers to apply early; do not wait until the last day or week of the application period. Applying early will help to expedite HHS’s review process and payment calculations, and ultimately accelerate the distribution of all payments.

All payment recipients will be required to attest to receiving the Phase 3 General Distribution payment and accept the associated Terms and Conditions.

**Application Deadline**

Providers will have from October 5, 2020 through November 6, 2020 to apply for Phase 3 General Distribution funding. HHS’s top priority is ensuring as many providers possible have an opportunity to apply. HHS will continue to host webinars to assist providers through the application process and the call center is also available to address questions.

HHS recognizes the multifaceted challenges of this pandemic cannot be won without frontline healthcare providers focused on containing the virus and delivering holistic care. Funding for this Phase 3 General Distribution was made possible through the bipartisan CARES Act and the Paycheck Protection Program and Health Care Enhancement Act, which allocated $175 billion in relief funds to hospitals and other healthcare providers.
