Public Safety News Information Sheet

**What is Public Safety News?**

Public Safety News, often referred to as PSN, is the monthly newsletter produced by the Montgomery County Department of Public Safety. It has been published since 2002 and is now in its 20th year in print.

Public Safety News contains important announcements from the Department of Public Safety for municipal responders, as well as training announcements, career opportunities, and other significant updates.

**What are the Monthly Notices?**

The Monthly Notices are formatted as a merged PDF that includes announcements for community events, training/education opportunities, fundraisers, and job offerings. Some content is provided by the Department of Public Safety, but most is received from municipalities and partner agencies. The notices are posted on the Department of Public Safety website along with PSN.

**How do I receive alerts when PSN is available?**

PSN and the Monthly Notices are typically made available on the department website on the last business day of each month. An email alert is sent to subscribers as soon as the newest editions are posted. The email contains a link to access the newsletter, as well as a listing of articles in the current edition. If you would like to begin receiving alerts, please contact us using the information below.

**How do I access past Public Safety News or Monthly Notices?**

Past editions of the Public Safety News and Monthly Notices are available on the following webpage: [https://www.montcopa.org/1527/Public-Safety-News](https://www.montcopa.org/1527/Public-Safety-News).

**My organization or department has something to share. How do we do it?**

The Department of Public Safety has a lot of information to share, but we are always looking for news from our municipal responders! If you have a story, training or career opportunity, or newsworthy event, please contact us using the information below.

**I have some additional questions. How do I contact you?**

Department of Public Safety Training Programs
New Course Offering
Montgomery County Fire Academy

Water Rescue Operations & Technician Level Refresher

These 8-hour refresher courses being offered this semester build upon the skills learned in the PA Fish and Boat Water Rescue and Emergency Response and Advanced Line Systems Rescue courses. The programs includes a brief dry-land review of skills and plenty of in-water time to perfect skills and learn additional techniques not found in the Fish and Boat curriculum.

Operations Level Refresher—Saturday, April 17, 2021

Technician Level Refresher—Sunday, April 18, 2021

For more information please contact
Rob Carovillano Rescue Training Coordinator
Email rcarovillano@montcopa.org
PSFA Truck Company Operations Level II
16 hours

**WHEN:** Monday 4/26, Wednesday 4/28, Sunday 5/2

**TIME:** 6:45 PM – 10 PM on Weeknights
8:00 AM – 4:30 PM on Sunday

**WHERE:** Montgomery County Fire Academy

**PREREQUISITE:** Truck Company Ops Level I

TCOP II will build on the fundamental skills covered in Truck I but with more advanced techniques. Many skills involve the extensive use of a rotary power saw. Topics covered include:

- Large Area Search and Rescue
- TIC skills
- Bilco Door Forcible Entry
- Chain cutting
- HUD Window Removal
- Removing Window Bars
- Overhead Door Removal
- Aerial Ladder Climbing
L-146
Homeland Security Exercise and Evaluation Program

This course is designed to allow participants to develop a working knowledge of HSEEP, including the resources, tools, and policies that govern and support HSEEP compliance. The HSEEP Training course is an intermediate-level training course that incorporates exercise guidance and best practices from the HSEEP Volumes. It is an interactive course that allows participants to share personal lessons learned and best practices while gaining practical experience.

This course is being provided FREE of cost to all students in cooperative agreement with the Pennsylvania Emergency Management Agency.

**When:** October 18-19, 2021  
**Time:** 8AM – 4PM  
**Where:** Montgomery County PSTC  
**Registration:** [TrainPA](#) Course ID: 1067228
**In light of COVID-19 and for the safety of our guests and speakers, EDITS has been postponed until 2022. We will continue to monitor the situation and take necessary precautions as we move forward in the planning process. Thank you for your understanding.**
General Announcements and Information
SAFETY ALERT
Scott AV-3000 HT Facepiece
Issued February 24, 2021

The New Jersey Division of Fire Safety has received reports from several departments throughout the state regarding cracking of the polycarbonate lens component of some Scott AV-3000 HT facepiece assemblies. The departments are primarily reporting initial cracks in the inlet area at the inlet port where the breathing regulator is attached. Some chipping and cracking have also been reported to “spider” further into the lens which can create a penetrable fracture of the lens thus allowing air to escape.

As of this Alert, the Division has not received any reports of injury or death resulting from the cracking described above. This cracking has not been reported to have occurred following any unexpected events where the facepiece could have been struck or crushed, or regulators/adapters forced into the inlet port. The reporting agencies have done internal checks to attempt to identify if these cracks could be due to operational misuse, improper storage and/or broken regulators/adapters. These checks did not confirm any potential systemic causes of the cracks as of this Alert. 3M/Scott has been advised of this issue and has launched an investigation from an engineering and production perspective.

The NJ Division of Fire Safety is recommending all agencies utilizing this equipment direct their members to conduct an immediate and ongoing inspection of their facepieces, following the guidelines in the published 3M Scott User Instructions and report any negative findings to their department heads and, in turn, department heads should forward those findings for tracking purposes to Vince Campagna at vincent.campagna@dca.nj.gov.

PLEASE POST IMMEDIATELY
Are you interested in gaining valuable experience as a live-in firefighter? If so, The La Mott Fire Company wants you! The La Mott Fire Company is located in Cheltenham Township, Montgomery County, PA which is located just 5 miles from Center City, Philadelphia. We protect a very diverse and wide range of property within our first due including GreenLeaf at Cheltenham, Lynnewood Gardens Apartments, various residential neighborhoods, apartment complexes, commercial establishments and much more. Our location provides easy access to center city Philadelphia (and multiple colleges and universities) via public transportation.

**MINIMUM REQUIREMENTS**
- 18 years of age
- FIRE FIGHTER I (NFPA 1001) certified
- FIRST AID & CPR
- HAZMAT OPERATIONS LEVEL certification (current)

~300 CALLS ANNUALLY - RENT FREE APARTMENTS - WEEKLY TRAINING - PROFESSIONAL DEVELOPMENT

**IF INTERESTED, PLEASE SEND RESUMES TO APPLY@LAMOTTFIRE.COM**
**(PLEASE DO NOT SEND CERTS)**
Frequently Asked Questions about NARCAN® (naloxone HCl) Nasal Spray

Shelf-Life Extension and Updated Storage Conditions

What is NARCAN® Nasal Spray?
- NARCAN® Nasal Spray is a prescription medicine used for the treatment of a known or suspected opioid overdose emergency with signs of breathing problems and severe sleepiness or not being able to respond.
- NARCAN® Nasal Spray is to be given right away and does not take the place of emergency medical care. Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray, even if the person wakes up.

Please see Important Safety Information below

Who should not use NARCAN® Nasal Spray?
Do not use NARCAN® Nasal Spray if you are allergic to naloxone hydrochloride or any of the ingredients in NARCAN® Nasal Spray.

What is the new shelf life of NARCAN® Nasal Spray?
NARCAN® expiration will now be changed from 24 to 36 months.

Will current, on-market NARCAN® Nasal Spray’s expiration be extended an additional 12 months?
The FDA has approved the 36-month shelf-life after completing a comprehensive review of data which included all versions of NARCAN®. Since this study was conducted using all versions of NARCAN®, any product previously released with a 24-month shelf life can now be extended for an additional 12 months.

What are the updated storage conditions for NARCAN® Nasal Spray?
Current Label: Store NARCAN® Nasal Spray in the blister and cartons provided.
Store at controlled room temperature 68°F to 77 °F (20°C to 25°C).
Excursions permitted between 41°F to 104°F (5°C to 40°C).
Do not freeze or expose to excessive heat above 104°F (40°C). Protect from light. NARCAN® Nasal Spray freezes at temperatures below 5°F (-15°C). If this happens, the device will not spray. Leave the device at room temperature for 15 minutes to thaw the medicine before use.

New Label: Store NARCAN® Nasal Spray in the blister and cartons provided.
Store below 77°F (25°C). Excursions permitted up to 104°F (40°C).
Do not freeze or expose to excessive heat above 104°F (40°C). Protect from light. NARCAN® Nasal Spray freezes at temperatures below 5°F (-15°C). If this happens, the device will not spray. If NARCAN® Nasal Spray is frozen and is needed in an emergency, do NOT wait for NARCAN® Nasal Spray to thaw. Get emergency medical help right away. However, NARCAN® Nasal Spray may be thawed by allowing it to sit at room temperature for 15 minutes, and it may still be used if it has been thawed after being previously frozen.

Important Safety information for NARCAN® Nasal Spray

What is the most important information I should know about NARCAN® Nasal Spray?
NARCAN® Nasal Spray is used to temporarily reverse the effects of opioid medicines. The medicine in NARCAN® Nasal Spray has no effect in people who are not taking opioid medicines. Always carry NARCAN® Nasal Spray with you in case of an opioid overdose.

1. Use NARCAN® Nasal Spray right away if you or your caregiver think signs or symptoms of an opioid overdose are present, even if you are not sure, because an opioid overdose can cause severe injury or death. Signs and symptoms of an opioid overdose may include:
   - unusual sleepiness and you are not able to awaken the person with a loud voice or by rubbing firmly on the middle of their chest (sternum)
   - breathing problems including slow or shallow breathing in someone difficult to awaken or who looks like they are not breathing
the black circle in the center of the colored part of the eye (pupil) is very small, sometimes called "pinpoint pupils," in someone difficult to awaken

2. Family members, caregivers, or other people who may have to use NARCAN® Nasal Spray in an opioid overdose should know where NARCAN® Nasal Spray is stored and how to give NARCAN® Nasal Spray before an opioid overdose happens.

3. Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray. Rescue breathing or CPR (cardiopulmonary resuscitation) may be given while waiting for emergency medical help.

4. The signs and symptoms of an opioid overdose can return after NARCAN® Nasal Spray is given. If this happens, give another dose after 2 to 3 minutes using a new NARCAN® Nasal Spray device and watch the person closely until emergency help is received.

What should I tell my healthcare provider before using NARCAN® Nasal Spray?
Before using NARCAN® Nasal Spray, tell your healthcare provider about all of your medical conditions, including if you:

- have heart problems
- are pregnant or plan to become pregnant. Use of NARCAN® Nasal Spray may cause withdrawal symptoms in your unborn baby. Your unborn baby should be examined by a healthcare provider right away after you use NARCAN® Nasal Spray.
- are breastfeeding or plan to breastfeed. It is not known if NARCAN® Nasal Spray passes into your breast milk.

Tell your healthcare provider about the medicines you take, including prescription and over-the-counter medicines, drugs, vitamins, and herbal supplements.

What are the possible side effects of NARCAN® Nasal Spray?
NARCAN® Nasal Spray may cause serious side effects, including:
Sudden opioid withdrawal symptoms which can be severe. In someone who has been using opioids regularly, opioid withdrawal symptoms can happen suddenly after receiving NARCAN® Nasal Spray and may include:

- body aches
- diarrhea
- increased heart rate
- fever
- runny nose
- sneezing
- goose bumps
- sweating
- yawning
- nausea or vomiting
- nervousness
- restlessness or irritability
- shivering or trembling
- stomach cramping
- weakness
- increased blood pressure

Some patients may show aggressive behavior upon abrupt reversal of an opioid overdose. In infants under 4 weeks old who have been receiving opioids regularly, sudden opioid withdrawal may be life-threatening if not treated the right way. Signs and symptoms include: seizures, crying more than usual, and increased reflexes.

These are not all of the possible side effects of NARCAN® Nasal Spray. Call your doctor for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

External Training Programs
February 5, 2021

Dear Chief:

For the 2021 Spring Training Semester the PECO Fire Academy will be offering weekend, daytime and evening training sessions that will be opened to all of the companies in our service territory combined (Firefighters, EMS, Police and Special Fire Police). The emergency services training program, "Handling Natural Gas and Electrical Emergencies", consists of classroom and practical training sessions for emergency response to natural gas and electrical systems incidents. The program commences promptly at the time noted on the attachment at the PECO Energy Fire Academy, 300 Front St., West Conshohocken, PA.

Students should come prepared with notepad, pencils, and full turn out gear. **S.C.B.A. is not required.** Instruct your members to bring a lunch as the staff requests that students not leave the training facility during the thirty-minute lunch break.

With COVID restriction's, a maximum of 15 members are permitted to attend each of the programs. Unregistered personnel will not be accepted. All personnel are required to wear surgical masks or K95 masks during the training. PECO will provide masks if personnel do not have their own. They need to be a member of your organization and at least 16 years of age. If you have additional members that you would like to send, please include them in-case of class openings or student cancelations. We ask if you know that you are not going to make the training session you let us know so we can give someone else the opportunity to attend.

**Confirmation e-mails will be sent acknowledging your enrollment.**

If you do not receive an e-mail the class has been filled and you will be placed on a list in the event there are cancelations. Please check all of your station information and contact numbers so we can update our database. (SEE BACK OF SHEET) Please contact Frank Colelli by email at Frank.Colelli@exeloncorp.com if you have questions on the training programs.

Registration shall be completed at: https://secure.peco.com/SafetyCommunity/Education/Pages/FireAcademy.aspx
(you will get an immediate confirmation) for the class or you can scan and email the form to PECOFireAcademy@exeloncorp.com

Registration will be closed after 15 members are met for each class.

Sincerely,

Frank J. Colelli
Senior Training Specialist
PECO Fire Academy

1)______________________  2)_____________________

Provide additional personnel that you would like to attend the program. If seats are available you will be contacted based on the date this Attachment was received by the Fire Academy.

Special COVID Requirements

With COVID restriction’s in place class sizes will be limited to 15 students per class. Each student will be required to conduct a pre-screening log and take their temperature. Safety is our number one priority and safe practices are put in place to ensure the safety of all members attending training programs at the PECO Fire Academy. Enhanced/deep cleaning protocols include expanded scope with an increased frequency of disinfecting surfaces focusing on heavy touchpoint areas, including but not limited to, entry lobbies and reception surfaces, conference and training rooms, restroom surfaces, breakrooms and kitchen surfaces, workstation surfaces, light switches, and door knobs. All PECO facilities are deep cleaned at least once weekly, and on demand as required.

SAFETY FIRST
This is a snap shot of the do’s and don’ts of safety tips to emergency responders when dealing with an emergency involving either natural gas or electricity. This is just a brief reminder and in no way, replaces training that will better prepare you for such emergency responses.

**SAFETY** always is the watchword of the utility industry. This is certainly a major reason why it has earned an enviable position in safely delivering its product to its customers and helping the public enjoy the benefits of natural gas and electric appliances.

**NATURAL GAS**

Immediately notify PECO Energy once you have determined that the incident involves natural gas.

Do not attempt to extinguish flames if gas becomes ignited.

Use a meter and do you know what the meter is telling you.

Establish a hot zone around the opening. Keep bystanders away. Prohibit smoking, and other sources of ignition.

**DO NOT TURN ON THE APPLIANCE OR METER VALVE ONCE HAVING SHUT IT OFF.**

Clear the building of occupants if natural gas is escaping in any quantity.

Always test the atmosphere of a manhole, vault or sewer, first with a gas detector and then for oxygen deficiency, carbon monoxide, and hydrogen sulfide, before anyone enters.

Do not enter manholes, vaults or sewers if dangerous concentration of gases or vapors are known or suspected to be present.

Check the basements of adjoining buildings for any evidence of gas intrusion. If found, ventilate by opening windows and doors. Shut off open flame devices and do not operate electrical switches.

With the exception of saving a life... **DON’T**...make any effort to extinguish flames of escaping burning gas. (Use spray only to protect surrounding exposure).

**DON’T** ring doorbells, operate electrical switches or use the telephone in areas where the presence of unignited combustible gas is suspected.

**DON’T**...allow open flames, smoking, or spark-producing devices in either open or closed areas – if the presence of unignited combustible gas is suspected.

**DON’T**...use equipment that is non-intrinsically safe.

**ELECTRICITY**
CAUTION

ASSUME EVERY FALLEN WIRE IS ENERGIZED AND DANGEROUS.

Personnel SHALL maintain a safe distance, a minimum of 20 feet from downed energized conductors. Only in extreme emergencies should the conductor be cut clear while energized. The conductor SHALL be de-energized from a remote location by qualified PECO Employee.

When underground cables are struck with backhoes or similar types of equipment, the operator SHALL remain in the machine until the cables are verified as de-energized.

Beware Run-off Water! A dangerously energized puddle of water may be formed by water running off energized electric facilities.

Beware Adjacent Equipment! Take care not to damage electric facilities located near the incident. A porcelain insulator supporting energized facilities may arc and even explode, if hit by a water stream directed onto it.

Clear everyone, including fire fighters, from any energized object;

Assume every fallen wire is energized and dangerous;

Use approved procedures and equipment near energized facilities;

Tackle surrounding fires;

Ignore fires on our electric equipment until our representative arrives

Only de-energize electric facilities to protect life

Notify PECO Energy Co. Immediately.
Career Opportunities
More Than a Job...It’s a CAREER!

Starting Salary $67,782/year
Top Rate Salary $96,816/year
Benefits include Defined Pension, Health Care including HRA, Vision, and Dental. Life Insurance. Vacation, Holiday, Personal and Sick Days.

*MINIMUM REQUIREMENTS:
Possess a diploma from accredited high school or equivalent
Be a United States citizen
Be 21 years of age by May 7, 2021
Be physically and mentally fit to perform duties of a firefighter
Possess a valid PA motor vehicle operator’s license
Be PA State Certified Level II Firefighter or equivalent
Possess current (Full or refresher in last 12 months) certificate for Hazardous Materials Operations
Possess Driver Operator Pumper Certification or both EVOC and Pump Operations
Completed application along with $35 check MUST be submitted prior to 3:00pm on May 7, 2021

Written exam will take place May 17, 2021 at 6pm at Bucks County Public Safety Training Center
*For more information go to WWW.NORRISTOWNFIRE.ORG or contact Deputy Fire Chief Lockhart at 610-270-2894 or by email at rlockhart@norristown.org

The Municipality of Norristown is an Equal Opportunity Employer. If you require any special accommodations in accordance with the Americans With Disabilities Act to complete the testing, please provide evidence of such recognized disability to the Municipal Administrator at the time the application is submitted.
EXAMINATION NOTICE
CIVIL SERVICE COMMISSION OF
THE MUNICIPALITY OF NORRISTOWN
ENTRY LEVEL FIREFIGHTER

Forms required to be completed and submitted for application for the position of ENTRY-LEVEL FIREFIGHTER for the Municipality of Norristown, a Civil Service position, will be available beginning February 22, 2021, 2021 at the Office of the Municipal Administrator, Norristown Municipal Hall, 235 E. Airy Street, Norristown, PA 19401. Applications may be picked up on that date between 9 a.m. and 3 p.m. and thereafter during regular business hours between 9:00 a.m. and 3:00 p.m., Monday through Friday.

COMPLETED APPLICATIONS MUST BE SUBMITTED TO THE MUNICIPAL ADMINISTRATOR’S OFFICE at the above address PRIOR TO 3:00 P.M. on May 7, 2021. Completed Applications must be accompanied by payment in the amount of $35 to cover the administrative cost of testing.
