Public Safety News Information Sheet

What is Public Safety News?

Public Safety News, often referred to as PSN, is the monthly newsletter produced by the Montgomery County Department of Public Safety. It has been published since 2002 and is now in its 20th year in print.

Public Safety News contains important announcements from the Department of Public Safety for municipal responders, as well as training announcements, career opportunities, and other significant updates.

What are the Monthly Notices?

The Monthly Notices are formatted as a merged PDF that includes announcements for community events, training/education opportunities, fundraisers, and job offerings. Some content is provided by the Department of Public Safety, but most is received from municipalities and partner agencies. The notices are posted on the Department of Public Safety website along with PSN.

How do I receive alerts when PSN is available?

PSN and the Monthly Notices are typically made available on the department website on the last business day of each month. An email alert is sent to subscribers as soon as the newest editions are posted. The email contains a link to access the newsletter, as well as a listing of articles in the current edition. If you would like to begin receiving alerts, please contact us using the information below.

How do I access past Public Safety News or Monthly Notices?

Past editions of the Public Safety News and Monthly Notices are available on the following webpage:

https://www.montcopa.org/1527/Public-Safety-News

My organization or department has something to share. How do we do it?

The Department of Public Safety has a lot of information to share, but we are always looking for news from our municipal responders! If you have a story, training or career opportunity, or newsworthy event, please contact us using the information below.

I have some additional questions. How do I contact you?

Todd Stieritz
Public Affairs Coordinator
Montgomery County Department of Public Safety
(610) 631-6544
 tstierit@montcopa.org
**LET'S TALK ABOUT: FIRST RESPONDER HEALTH & WELLNESS**
Montgomery County Department of Public Safety
Division of EMS & Office of the Medical Director

**HOW DOES STRESS IMPACT FIRST RESPONDERS?**
Ø 85% of first responders have experienced symptoms related to mental health distress.
Ø Depression and PTSD are up to 5 times more common in first responders.
Ø The COVID-19 pandemic has increased stressors that first responders experience daily.

**HOW CAN WE REDUCE STRESS?**
Exercise, sleep, mindfulness, and talking about what's on your mind are all helpful in reducing stress. Mental health practitioners and trained peers may be able to confidentially help you alleviate stressors from work and life.

**Local Resources**

**Montco Critical Incident Stress Management (CISM)**
610-635-4350
Contact through County Dispatch
cismmontco@verizon.net
• Offers 1-1 and group setting support. Call for a consultation on peer support, information on additional ways CISM can be utilized, and training opportunities.

**Creative Health Services**
484-941-0500
info@creativehs.org
• Offers comprehensive support in mental wellness, substance abuse, and family services.
• Makes referrals to first responder specialized mental health professionals.

**Montco Mobile Crisis**
1-855-634-4673
• Available 24/7 with immediate support for individuals in crisis.
• Works to refer individuals to necessary care and prevent future crises.

**FIRST RESPONDER RESOURCES**

**Share the Load**
1-888-731-3473
• A program run by the National Volunteer Fire Council.
• They have a help line, text-based help service, and have also collected a list of many good resources for people looking for help and support.

**Safe Call Now**
1-206-459-3020
• A 24/7 help line staffed by first responders for first responders and their family members.
• They can assist with treatment options for responders who are suffering from mental health, substance abuse and other personal issues.

**Suicide Prevention Lifeline**
1-800-273-8255
• 24/7 Services anyone who needs mental health or suicide prevention assistance.
• Not first responder specific.
Veterans press 1

**Crisis Text Line**
TEXT 741-741
A 24/7 service that allows people in crisis to speak with a trained crisis counselor by texting "Start" or "Help".

**Copline (Law Enforcement Only)**
1-800-267-5463
A confidential helpline for members of US law enforcement.

*The Department of Public Safety is committed to supporting the health and wellness of all first responders. Please let us know if you have feedback, suggestions, or concerns.*

Department of Public Safety Training Programs
ICS-300

ICS-300 Intermediate ICS for Expanding Incidents

Course is designed to provide overall incident management skills rather than tactical expertise. The course will cover the implementation of the incident management process on Type 3 incidents, define a Type 3 incident, and the development of an Incident Action Plan.

Prerequisites: IS-100 Incident Command System, IS-200 ICS for Single Resources and Initial Action Incidents, IS-700 NIMS, An Introduction, and IS-800 National Response Framework, An Introduction

Target Audience

- First Responders
- Emergency Managers
- Private Sector
- Volunteer Organizations
- Schools and Universities
- Hospitals
- Healthcare Facilities
- Government Departments

Date: December 1-3, 2021
Time: 0800 - 1500

Montgomery County PSTC
Registration: TrainPA
Course ID: 1067423

Seating is Limited!

* Please make all money orders payable to MCEMS * |
| HOW TO REGISTER | Register online at emstrainingcenter.org  
Course listed under Montgomery County Training Institute |
| REGISTRATION DEADLINE | November 22, 2021 |
This course provides first responders from multiple disciplines with skills to manage the initial response to a large-scale attack in a chaotic environment during a complex coordinated attack (CCA). It aims to train responders in how to use intuitive skills such as observation, analysis, anticipation, and awareness to recognize the possibility of an attack involving multiple incidents of an extreme magnitude that inundate resources, exceed conventional tactics and strategies, and often require a joint response involving members from multiple disciplines and jurisdictions. Topics for discussion include recognizing the characteristics of a potential CCA; coordinating and integrating the response of multiple disciplines and agencies; managing resources; using information sharing and intelligence gathering to develop awareness; and solving problems using creative thinking. Participants will learn to gather and disseminate critical information accordingly in order to facilitate rapid analysis.

They will also learn to recognize and prevent potential response obstacles or risks to safety including self-deployment and over convergence of assets. Participants will apply the skills learned in Critical Decision Making for Complex Coordinated Attacks through interactive activities, facilitated discussion, and practical application in a training environment.

Professional Disciplines: Law Enforcement, Fire Service, EMS

The primary target audience for the Direct Delivery version of this course includes:

- Emergency responders: police, fire, and emergency medical services personnel, including those who are likely to assume command at some point during response to a complex coordinated attack.

Date: December 7-8, 2021

Location: Montgomery County Public Safety Training Campus
1175 Conshohocken Rd., Conshohocken, PA 19428

How to Register:
Please see next page on how to register.

All participants are required to have a FEMA SID prior to enrolling in this training. Please visit cdp.dhs.gov/femasid to register for a FEMA SID.

The National Center for Biomedical Research and Training at Louisiana State University offers DHS-certified courses covered under the NCBRT’s Homeland Security National Training Program Cooperative Agreement. As a DHS primary training provider, the NCBRT can offer this vital training at no direct cost to your agency. Please contact us at info@ncbrt.lsu.edu or 1-877-829-8550 to schedule a course through your state administrative agency, or visit www.ncbrt.lsu.edu to learn more about the NCBRT’s training opportunities. Remember, the time to prepare is now!
NCBRT Online Registration

Class Information
PER-335 Critical Decision Making for Complex Coordinated Attacks
Conshohocken, PA
Tuesday, December 7, 2021 - Wednesday, December 8, 2021, 8:00 AM - 5:00 PM EST

FEMA SID
A FEMA SID number is required for registration. You can look up your FEMA SID, or register for a new one, at the following site: https://cdp.dhs.gov/femasid.

Register
Register online at: https://train.ncbrt.lsu.edu/Student/Register?ClassID=28635
Class ID: 28635
Class Access Code: NCBRT335

Confirmation Email
Once your registration is complete, you will receive an email confirmation. This email will contain your FEMA SID and registration Confirmation Number. Make sure to have this information available to you in class! You will need this to complete the online post-test and class evaluation.

Pre-Test
As soon as you complete registration, you will see a link "Begin Class Pre-Test". Click on this link to access the class pre-test. A completed pre-test is required in order to later take the post-test and receive class credit.

In Class
The online registration site is mobile friendly and can be used by any phone, tablet, or computer with internet access. At the end of training, a post-test and class evaluation will be conducted. Bring a device to class that can access the online registration site, so you may complete your post-test and evaluation online. Your post-test will be graded immediately, and you will be able to review the answers. As soon as the post-test is passed and the class evaluation is completed, your Class Information page will update to include a link for your certificate. The certificate may be downloaded as a PDF to your device, or sent as a PDF to your email.

Assistance
If you need assistance with the online registration site, please contact the NCBRT Help Desk at help@ncbrt.lsu.edu.
**Course Description:**
This course will discuss how major incidents pose special management challenges. It will explore the circumstances in which an Area Command is established and describe the circumstances in which multi-agency coordination systems are established.

**Prerequisites:**
- IS-100
- IS-200
- IS-700
- IS-800
- ICS-300

**Target Audience**
- First Responders
- Emergency Managers
- Private Sector
- Volunteer Organizations
- Schools and Universities
- Hospitals
- Healthcare Facilities
- Government Departments

**When:** January 5-6, 2022  
**Time:** 8:00 AM—4:00 PM  
**Where:** TBD  
**Registration:** [TrainPA](#) Course ID: 1062436
2022 SOUTHEASTERN PENNSYLVANIA LAW ENFORCEMENT CONFERENCE

Thursday, April 7, 2022
8:00 AM - 4:00 PM
Registration opens at 7:30 AM

General Announcements and Information
Motorola Solutions Technical Notification (MTN)

**TITLE:** APX UL Div1 Battery requires a compatible radio firmware version

**TECHNOLOGY:** Astro Energy / Astro Subscriber

**SYMPTOMS:**
To address end of life (EOL) components with UL Div1 APX Batteries, the following changes are being made:
- APX UL Div1 Batteries (listed below) will be built with new chipset components starting with the listed date code
- Portable radios that use these UL Div1 Batteries (new chipset) will require a minimum radio firmware version

Failure to use the compatible radio firmware with the below UL Div1 Batteries may result in an inaccurate display of the radio battery gauge level. The actual UL Div1 battery capacity is **not** impacted, however, over time, the battery gauge level on the radio may display a lower battery level than the actual remaining battery capacity.

<table>
<thead>
<tr>
<th>Battery Model</th>
<th>Battery Date Code</th>
<th>Description</th>
<th>Required Radio Firmware version</th>
</tr>
</thead>
<tbody>
<tr>
<td>PMNN4547A</td>
<td>2117+ date code (or higher) has the new chipset</td>
<td>IMPRES™2 Li-Ion Battery, 3100 mAh, IP68 UL Div1 HAZLOC</td>
<td>Radio Firmware R25.01.00 (or greater).</td>
</tr>
<tr>
<td>PMNN4573A</td>
<td></td>
<td>IMPRES™2 Li-Ion Battery, 4600 mAh, IP68 UL Div1 HAZLOC</td>
<td></td>
</tr>
</tbody>
</table>

**RESOLUTIONS AND REPAIR PROCEDURES:**
- Should you experience an inconsistency with the battery charge level on the radio for a fully charged battery (Figure 1) check the following:
  - **If** the battery date code is **2117 or higher** (Figure 2),
  - **Then** upgrade the radio firmware version to **R25.01.00 (or greater)**. R25.01.00 will be available on MyView 18-Oct-2021.
- Do not return the battery for replacement if the radio firmware version is R24.xx.xx or earlier as this will not resolve the battery gauge level inconsistency. The above batteries will require that the radio firmware is R25.01.00 (or greater).

**WHEN TO APPLY RESOLUTION:**
During maintenance if the above battery models and date codes are being used.

**Definitive Test:**
- **APX Radio Menu:** For a new, fully charged battery, the Remaining Capacity value displayed from the radio menu *(Figure 1)* should be relatively close to the rated capacity listed on the battery label *(Figure 2)*. However, in the example below the Battery Gauge(¾) and Charge(70%) is much lower than “Rem. Cap; 3182” which reflects a Full (100%) capacity of this 3100mAh battery *(Figure 1)*.

ANY USE NOT APPROVED BY MOTOROLA SOLUTIONS IS PROHIBITED. This Motorola Technical Notification (MTN) is issued pursuant to Motorola's ongoing review of the quality, effectiveness, and performance of its products. The information provided in this bulletin is intended for use by trained, professional technicians only, who have the expertise to perform the service described in the MTN. Motorola disclaims any and all liability for product quality or performance if the recommendations in this MTN are not implemented, or not implemented in compliance with the instructions provided here. Implementation of these recommendations may be necessary for the product to remain compliant with applicable laws or regulations. Please be advised, that failure to implement these recommendations in the manner instructed may also invalidate applicable warranties, or otherwise impact any potential contractual rights or obligations. NOTICE: As of 18 December 2020, MSI will no longer accept orders for replacement batteries for FM3610_88 radios. The FM3610_88 standard expired in 2012, after which MSI began phasing out production of FM3610_88 radios and associated accessories, such as replacement batteries. Due to normal manufacturing component obsolescence pressures, regrettably, Motorola will no longer be able to build and sell FM batteries beyond the eight-year anniversary of the FM3610_88 expiration. The last date to order Motorola FM batteries is 18 December 2020, and only delivery terms no later than 31 March 2021 will be accepted.

If you have questions regarding this notification, please contact your Motorola Solutions Account Representative.

FREQUENTLY ASKED QUESTIONS

ASTRO 25® HAZLOC CERTIFICATION

Q: HAZLOC? INTRINSICALLY SAFE? WHAT DO THESE TERMS MEAN?
A: The National Electrical Code (NEC) NFPA 70 defines Hazardous Locations as areas “where fire or explosion hazards may exist due to flammable gases or vapors, flammable liquids, combustible dust, or ignitable fibers or flyings.”

“Intrinsically Safe” is an equipment design protection method for Division 1 which encompasses hazards that may be present under normal operating conditions or frequently present during maintenance and repair work.

Q: DOES THE EXPIRATION OF THE FM3610_88 STANDARD ONLY AFFECT MOTOROLA?
A: The FM3610_88 expired in 2012 and affects products from all radio manufacturers, which are certified to this standard.

Q: WHAT’S CHANGING?
A: Motorola will be adapting to a new TIA-4950 standard for Hazardous Location certification of two-way radios, which is similar to the FM3610_88 standard.

Compliance testing will be done by UL (Underwriters Laboratories). Radios will be approved to TIA-4950 standard for use in Division 1, Class I, Groups C, D, Class II, Group E, F, G and Class III hazardous locations. This is the same classification rating as FM3610_88.

Q: CAN I CONTINUE TO USE MY FM APPROVED RADIO IN THE FIELD?
A: There are no known safety issues with two-way radios certified under the FM3610_88 standard. FM approved radios that are deployed in the field will maintain their FM Intrinsically Safe approval status, provided that any service and repairs are done at an FM audited repair facility.

Q: HOW LONG WILL I BE ABLE TO GET FM APPROVED RADIOS FROM MOTOROLA?
A: Radios certified to FM3610_88 will be phased out of production in December 2015.

Q: WILL MOTOROLA CONTINUE TO OFFER HAZARDOUS LOCATIONS RATED RADIO?
A: The UL approved APX4000 Two knob Series radios equipped with new NNTN8560 battery is available today. The APX 7000 and APX 6000 series is pending UL certification to TIA-4950 standard for use in hazardous locations Division 1, Class I.

Q: WILL I BE ABLE TO GET REPLACEMENT BATTERIES AND ACCESSORIES FOR MY OLDER FM APPROVED RADIOS?
A: FM approved battery and accessory replacements will continue to be sold.

Q: CAN I MIX BATTERIES AND RADIOS?
A: No. FM and UL approve the radio and battery together as a system. The FM approved battery may only be used on an FM approved radio, and the UL approved battery may only be used on a UL approved radio, otherwise the certification is not valid.

Q: HOW CAN I IDENTIFY A UL CERTIFIED RADIO?
A: The UL approved radios will have a new UL label, but physically they will be the same as the radios available now.

Q: WHAT DO I NEED TO DO?
A: Ensure that your company documentation defines Hazardous Location requirements in terms of Division, Class and Group rather than simply FM Approved or Intrinsically Safe. Knowing the specific Hazardous Locations classification is important in selecting two-way radios that are approved for use in those environments.

Motorola Solutions, Inc. 1301 E. Algonquin Road, Schaumburg, Illinois 60196 U.S.A.

MOTOROLA IMPRES™ 2 BATTERY WARRANTY
1) WORKMANSHIP:
   • 48 months

2) CAPACITY:
   • Warranted to maintain 80% of rated capacity for 24 months when charged exclusively in IMPRES 2 chargers
   • Warranted to maintain 80% of rated capacity for 18 months when charged exclusively in IMPRES chargers; warranted to maintain 80% of rated capacity for 12 months when charged in non IMPRES chargers

MOTOROLA ORIGINAL® BATTERY WARRANTY
1) WORKMANSHIP:
   • 48 months for Motorola Original® batteries

2) CAPACITY:
   • Warranted to maintain 80% of rated capacity for 12 months

MOTOROLA IMPRES™ BATTERY WARRANTY
1) WORKMANSHIP:
   • 48 months

2) CAPACITY:
   • Warranted to maintain 80% of rated capacity for 18 months when charged exclusively in IMPRES chargers
   • Warranted to maintain 80% of rated capacity for 12 months when charged exclusively in non IMPRES chargers

MAG ONE BATTERY WARRANTY
1) WORKMANSHIP:
   • 12 months

2) CAPACITY:
   • Warranted to maintain 80% of rated capacity for 12 months

---

1 For a battery that Motorola Solutions determines does not meet the workmanship warranty because either the: i) battery seam opens, ii) battery has contact problems with either the applicable two-way radio or battery charger due to misalignment or plastic residue blocking the battery’s contacts, or iii) battery clip retention feature (if applicable) breaks, then Motorola Solutions will provide a replacement battery, whose own warranty will extend only for the remaining warranty period of the original battery.

2 Motorola Solutions will replace a battery during the applicable capacity period only after Motorola Solutions confirms that the battery has been maintained according to Motorola Solution’s New Battery Use, Storage and Care Recommendations document. If Motorola Solutions provides a replacement battery, its own warranty will extend only for the remaining warranty period of the original battery.
IMPORTANT BATTERY STORAGE, HANDLING AND CARE TIPS — PLEASE READ

In compliance with the International Air Transport Association (IATA) policy, Motorola Solutions Inc. (MSI) ships all Li-Ion batteries at a state of charge less than 30% of their rated capacity.

**DO NOT:**

- Store batteries with flammable materials.
- Disassemble, crush, puncture, shred, or otherwise change the form of your battery.
- Discard your battery in a fire.
- Dry a wet battery with an appliance or heat source, such as a hair dryer or microwave oven. If the radio battery contacts are wet, dry the battery contacts before attaching the battery to the radio.

**ALWAYS DO:**

- Store batteries in a well ventilated, temperature (68°F/20°C to 86°F/30°C) and humidity (30%-60%) controlled environment.
- Use the battery in accordance with its water and dust Ingress Protection (IP) rating.
- Exercise care in handling any charged battery, particularly when placing it inside a pocket, purse, or other container with metal objects such as jewelry, keys or coins.
- Monthly inspect all battery contacts for dirt, grime and dust. Clean the contacts using a microfiber cloth or a lint free cloth. Reapply DeoxIT Gold on the radio side contacts using DeoxIT pen PN# G100P.

**CARE & HANDLING:**

- Charge battery within 1 month of receipt.
- Always charge your battery using the approved Motorola charger. Charging in non-Motorola chargers may lead to reduced performance and battery damage.
**BATTERY INITIALIZATION / RE-CALIBRATION / RECONDITIONING RECOMMENDATIONS (FOR IMPRES BATTERY)**

- For full IMPRES functionality, a new IMPRES battery must be initialized / calibrated by the IMPRES charger. The IMPRES charger will automatically detect the new IMPRES battery and automatically start the initialization / calibration process.
- IMPRES chargers will automatically re-calibrate / recondition IMPRES batteries periodically and users should not bypass the recalibration / reconditioning process.
- IMPRES Vehicular Chargers CANNOT re-calibrate / recondition IMPRES batteries, only IMPRES desktop chargers can perform re-calibration / reconditioning. Therefore, new IMPRES batteries must be initialized / calibrated in an IMPRES desktop charger and subsequent reconditionings / recalibrations must be performed in an IMPRES desktop charger.

**BATTERY STORAGE RECOMMENDATIONS**

- New batteries that will be stored should be charged to greater than 50% (but less than 100%) state of charge within 1 month of receipt. Every 9 months, batteries must be recharged to greater than 50% state of charge.
- Batteries removed from service for storage should be charged to greater than 50% state of charge. Every 9 months, batteries must be recharged to greater than 50% state of charge.
- Do not store batteries attached to radios or host devices. This will minimize current drain on the battery.

Note: Batteries removed from storage may take several charge / discharge cycles to achieve their optimal capacity. One or two reconditioning cycles will accelerate capacity recovery.

**BATTERY DISPOSAL**

All Motorola Solutions batteries contain recyclable materials. Recycling options available in your local area should be considered when disposing of this product. Do not discard the batteries into a fire.

**ACTIVE CIRCUITRY BATTERIES WITH SLEEP MODE**

The batteries listed below have a SLEEP MODE feature that IMPROVES the Long-Term Storage capability. This allows the batteries to discharge at a very slow rate and allows it to remain dormant for up to 9 months.

**SLEEP MODE BATTERY KIT NUMBERS**

<table>
<thead>
<tr>
<th>Kit Number</th>
<th>Description</th>
<th>IECEx/ATEX Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>NNTN8570B</td>
<td>IMPRES 2 Li-Ion 1250 mAh</td>
<td>IECEx/ATEX</td>
</tr>
<tr>
<td>PMNN4547</td>
<td>IMPRES 2 Li-Ion 3100 mAh</td>
<td>TIA 4950</td>
</tr>
<tr>
<td>PMNN4573</td>
<td>IMPRES 2 Li-ion 4800 mAh</td>
<td>TIA 4950</td>
</tr>
</tbody>
</table>

**IMPORTANT USER NOTE 1:** Upon delivery, these batteries are in sleep mode; these batteries will not power a radio and are not fully charged. Do not awaken the batteries unless they are meant to be used. It is recommended that the battery be kept in sleep mode until the time the battery is deployed (put into initial use). Waking the batteries can be accomplished by placing the battery into any Motorola Solutions Inc. (MSI) charger.

**IMPORTANT USER NOTE 2:** Placing the battery into any MSI approved charger or an IMPRES Battery Data Reader will immediately wake up the battery. Do not place the battery into any approved MSI charger or IMPRES battery data reader to keep the battery in sleep mode.

**Sleep Mode Battery Storage Recommendations, using IMPRES 2 Multi-unit Chargers (MUC) programmed with Software version V1.10 or later**

1. New batteries are in Sleep Mode when received.
2. If the batteries are to be directly placed into storage, do not place the battery into any approved MSI charger or IMPRES Battery Data Reader. These batteries can be stored for 9 months. At the end of the 9-month period, the batteries must be charged using an IMPRES 2 MUC in “Longterm Storage 75%” mode. Every 9 months, batteries must be recharged using an IMPRES 2 MUC in “Longterm Storage 75%” mode.
3. Batteries removed from service for storage should be charged using an IMPRES 2 MUC in “Longterm Storage 75%” mode. Every 9 months, batteries must be recharged using an IMPRES 2 MUC in “Longterm Storage 75%” mode.
4. Do not store batteries attached to radios or host devices. This will minimize current drain on the battery.
Sleep Mode Battery Storage Recommendations, using IMPRES 2 Single Unit Charger (SUC), IMPRES 1 MUC or SUC, or any Non-IMPRES charger

1. New batteries are in Sleep Mode when received.
2. If these are to be directly placed into storage, do not place the battery into any approved MSI charger or IMPRES Battery Data Reader. These batteries can be stored for 9 months. At the end of the 9-month period, the batteries must be charged to 100% state of charge. Every 6 months, batteries must be recharged to 100% state of charge.
3. Batteries removed from service for storage should be charged to 100% state of charge. Every 6 months, batteries must be recharged to 100% state of charge.
4. Do not store batteries attached to radios or host devices. This will minimize current drain on the battery.

Note: Batteries removed from storage may take several charge / discharge cycles to achieve their optimal capacity. One or two reconditioning cycles will accelerate capacity recovery.

ACTIVE CIRCUITRY BATTERIES WITHOUT SLEEP MODE

The batteries listed below have a higher self discharge rate due to additional active circuitry required to meet specific regulatory requirements. For best performance these batteries should be charged and put into use within one (1) month of receipt. However, if storage is required, the batteries should be charged to a 100% charge state every 6 months.

ACTIVE CIRCUITRY BATTERY STORAGE RECOMMENDATIONS

1. New batteries that will be stored should be charged to 100% state of charge within 1 month of receipt. Every 6 months, batteries must be recharged to 100% state of charge.
2. Batteries removed from service for storage should be charged to 100% state of charge. Every 6 months, batteries must be recharged to 100% state of charge.
3. Do not store batteries attached to radios or host devices. This will minimize current drain on the battery.

Note: Batteries removed from storage may take several charge / discharge cycles to achieve their optimal capacity. One or two reconditioning cycles will accelerate capacity recovery.
Motorola Solutions Technical Notification (MTN)

**TITLE:** Distorted transmit audio from a Self Contained Breathing Apparatus (SCBA) with radio communications capability linked via Bluetooth only to 7/800MHz AN models of APX6000/APX6000XE/APX7000/APX7000XE model radio with either the XE RSM or XE500 RSM.

**TECHNOLOGY:** APX Subscribers

**SYMPTOMS:**
Distorted transmit audio from an SCBA radio communications system linked to an APX AN model radio/XE or XE500 RSM via Bluetooth. APX6000/APX6000XE/APX8000/APX8000XE BN models with an XE500 RSM do not have the condition.

Condition is only seen when transmitting in the 7/800MHz bandsplit between 794MHz and 825MHz.

**MODELS / SYSTEM RELEASES / KITS / DATECODES AFFECTED:**
APX6000 7/800MHz AN models: H98UCD9PW5AN, H98UCF9PW6AN, H98UCH9PW7AN

APX6000XE 7/800MHz AN models: H98UCD9PW5AN, H98UCF9PW6AN, H98UCH9PW7AN ordered with QA020006

APX7000 all 7/800MHz models: H97TGD9PW1AN, ordered with QA00569 (7/800 primary band option) or QA00573 (7/800 secondary band option)

APX7000XE all 7/800MHz models: H49TGD9PW1AN, ordered with QA00569 (7/800 primary band option) or QA00573 (7/800 secondary band option)

XE500 RSM: PMMN4106 all models, PMMN4107 all models

XE RSM: NNTN8203 all models, NNTN8575 all models

SCBAs with radio communication systems that are able to establish a Bluetooth link with any of the Motorola radio models identified.

**SEVERITY RECOMMENDATION:**
High

**ROOT CAUSE / DEFINITIVE TEST:**
N/A

**WORKAROUNDS AND CORRECTIVE ACTIONS:**
Motorola Solutions advises not to use Bluetooth as the audio communication link between an SCBA enabled with radio communications and an APX AN model radio that has an XE RSM or XE500 RSM attached.

Users will need to use the facemask voice port capability of the SCBA apparatus to transmit audio with the XE and XE500 RSMs.

**RESOLUTIONS AND REPAIR PROCEDURES:**
While Motorola Solutions works on implementing a solution, Users will need to perform the mentioned workaround.

**PARTS REQUIRED (HARDWARE/SOFTWARE):**

Motorola Solutions Technical Notification (MTN)

TITLE: Repair of Radios with Factory Mutual (FM) Certification.

TECHNOLOGY: ASTRO and MOTOTRBO™ portables shipped with Factory Mutual FM3610_88 certification from the factory.

OVERVIEW: The repair of the following Motorola FM portable radios will be ending December 31st 2020. Radios received after December 31st, 2020 will no longer be available for repair. Customers will be contacted with the option to have the radio return unrepaired or repaired as a non FM radio. In the later case, the radio will be returned with all FM certification labels removed. This notice only refers to radio sent in for repair and does not affect FM certified radios with the FM approved batteries and accessories that continue to operate.

MODELS / SYSTEM RELEASES / KITS / DATE CODES AFFECTED:

ASTRO products

- APX 2000/3000/4000 series portables shipped with the FM battery option from the factory.
- APX 6000/6000XE & SRX2200 series portables shipped with the FM battery option from the factory.
- APX 7000/7000XE series portables shipped with the FM battery option from the factory.
- XTS 1500/2000/2250/2500/5000 series portables shipped with the FM battery option from the factory.

Note: Availability of FM versions of APX and SRX series radios ended in 2015.
Note: XTS series radios were cancelled prior to 2015

MOTOTRBO products

- XPR 6000/7000 (NA region) series portables shipped with the FM battery option from the factory.
- DGP 4000/5000/8000 (LACR region) series portables shipped with the FM battery option from the factory.
- DP 3000/4000 (EMEA region) series portables shipped with the FM battery option from the factory.
- XiR P8200/8600 (APC region) series portables shipped with the FM battery option from the factory.

Note: XPR 6000/DGP 4000/5000/DP 3000/XiR P8200 series were cancelled in 2015.
Note: XPR 7000/DGP 8000/DP 4000/XiR P8600 series were cancelled in 2017.

SEVERITY RECOMMENDATION:
None.

ROOT CAUSE / DEFINITIVE TEST:
None.

WORKAROUNDS AND CORRECTIVE ACTIONS:
1. Radios that require repair will be returned as is (unrepaired).
2. Customers may choose to have the repair to be done but all FM markings will be removed.

RESOLUTIONS AND REPAIR PROCEDURES:
None.
PARTS REQUIRED (HARDWARE/SOFTWARE):
None.

https://www.motorolasolutions.com/en_us/support.html
DATE:    July 5, 2021

SUBJECT:  Interim Policy Revised: Extension to Certification Expiration Dates

TO:   Test Site Coordinators

FROM:    Tracie Young-Brungard
         Manager, Certification Program

Due to the inability for our testing system to operate at normal capacity during the Public Health Emergency we are enacting an interim policy to address the temporary suspension on Policies 4.5 Written Exam and 4.7 Skills Exam requiring certification testing to be completed within one (1) year of the date of the original test.

Candidates whose initial expiration dates were between March 1, 2020 and Dec 31, 2020 will be extended until December 31, 2021.

Those with initial expiration dates between January 1, 2021 and September 31, 2021 will be extended until December 31, 2021.

This policy will take affect the date of this memo and will expire December 31, 2021

This memo will supersede FTS Memo 2020-08, 2020-16, 2021-06

Please do not hesitate to contact the certification staff with any questions or concerns. Email and work cell remains the best means of communication.

Thank you,
Frequently Asked Questions about NARCAN® (naloxone HCl) Nasal Spray

Shelf-Life Extension and Updated Storage Conditions

What is NARCAN® Nasal Spray?

- NARCAN® Nasal Spray is a prescription medicine used for the treatment of a known or suspected opioid overdose emergency with signs of breathing problems and severe sleepiness or not being able to respond.
- NARCAN® Nasal Spray is to be given right away and does not take the place of emergency medical care. Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray, even if the person wakes up.

Please see Important Safety Information below

Who should not use NARCAN® Nasal Spray?

Do not use NARCAN® Nasal Spray if you are allergic to naloxone hydrochloride or any of the ingredients in NARCAN® Nasal Spray.

What is the new shelf life of NARCAN® Nasal Spray?

NARCAN® expiration will now be changed from 24 to 36 months.

Will current, on-market NARCAN® Nasal Spray’s expiration be extended an additional 12 months?

The FDA has approved the 36-month shelf life after completing a comprehensive review of data which included all versions of NARCAN®. Since this study was conducted using all versions of NARCAN®, any product previously released with a 24-month shelf life can now be extended for an additional 12 months.

What are the updated storage conditions for NARCAN® Nasal Spray?

**Current Label:** Store NARCAN® Nasal Spray in the blister and cartons provided.
Store at controlled room temperature 68°F to 77 °F (20°C to 25°C).
Excursions permitted between 41°F to 104°F (5°C to 40°C).
Do not freeze or expose to excessive heat above 104°F (40°C). Protect from light. NARCAN® Nasal Spray freezes at temperatures below 5°F (-15°C). If this happens, the device will not spray. Leave the device at room temperature for 15 minutes to thaw the medicine before use.

**New Label:** Store NARCAN® Nasal Spray in the blister and cartons provided.
Store below 77°F (25°C). Excursions permitted up to 104°F (40°C).
Do not freeze or expose to excessive heat above 104°F (40°C). Protect from light.
NARCAN® Nasal Spray freezes at temperatures below 5°F (-15°C). If this happens, the device will not spray. If NARCAN® Nasal Spray is frozen and is needed in an emergency, do NOT wait for NARCAN® Nasal Spray to thaw. Get emergency medical help right away. However, NARCAN® Nasal Spray may be thawed by allowing it to sit at room temperature for 15 minutes, and it may still be used if it has been thawed after being previously frozen.

Important Safety information for NARCAN® Nasal Spray

What is the most important information I should know about NARCAN® Nasal Spray?

NARCAN® Nasal Spray is used to temporarily reverse the effects of opioid medicines. The medicine in NARCAN® Nasal Spray has no effect in people who are not taking opioid medicines. Always carry NARCAN® Nasal Spray with you in case of an opioid overdose.

1. Use NARCAN® Nasal Spray right away if you or your caregiver think signs or symptoms of an opioid overdose are present, even if you are not sure, because an opioid overdose can cause severe injury or death. Signs and symptoms of an opioid overdose may include:
   - unusual sleepiness and you are not able to awaken the person with a loud voice or by rubbing firmly on the middle of their chest (sternum)
   - breathing problems including slow or shallow breathing in someone difficult to awaken or who looks like they are not breathing
the black circle in the center of the colored part of the eye (pupil) is very small, sometimes called "pinpoint pupils," in someone difficult to awaken.

2. Family members, caregivers, or other people who may have to use NARCAN® Nasal Spray in an opioid overdose should know where NARCAN® Nasal Spray is stored and how to give NARCAN® Nasal Spray before an opioid overdose happens.

3. **Get emergency medical help right away after giving the first dose of NARCAN® Nasal Spray.** Rescue breathing or CPR (cardiopulmonary resuscitation) may be given while waiting for emergency medical help.

4. The signs and symptoms of an opioid overdose can return after NARCAN® Nasal Spray is given. If this happens, give another dose after 2 to 3 minutes using a new NARCAN® Nasal Spray device and watch the person closely until emergency help is received.

**What should I tell my healthcare provider before using NARCAN® Nasal Spray?**

Before using NARCAN® Nasal Spray, tell your healthcare provider about all of your medical conditions, including if you:

- have heart problems
- are pregnant or plan to become pregnant. Use of NARCAN® Nasal Spray may cause withdrawal symptoms in your unborn baby. Your unborn baby should be examined by a healthcare provider right away after you use NARCAN® Nasal Spray.
- are breastfeeding or plan to breastfeed. It is not known if NARCAN® Nasal Spray passes into your breast milk.

**Tell your healthcare provider about the medicines you take,** including prescription and over-the-counter medicines, drugs, vitamins, and herbal supplements.

**What are the possible side effects of NARCAN® Nasal Spray?**

**NARCAN® Nasal Spray may cause serious side effects,** including:

Sudden opioid withdrawal symptoms which can be severe. In someone who has been using opioids regularly, opioid withdrawal symptoms can happen suddenly after receiving NARCAN® Nasal Spray and may include:

- body aches
- diarrhea
- increased heart rate
- fever
- runny nose
- sneezing
- goose bumps
- sweating
- yawning
- nausea or vomiting
- nervousness
- restlessness or irritability
- shivering or trembling
- stomach cramping
- weakness
- increased blood pressure

Some patients may show aggressive behavior upon abrupt reversal of an opioid overdose. In infants under 4 weeks old who have been receiving opioids regularly, sudden opioid withdrawal may be life-threatening if not treated the right way. Signs and symptoms include: seizures, crying more than usual, and increased reflexes.

These are not all of the possible side effects of NARCAN® Nasal Spray. Call your doctor for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088 or [www.fda.gov/medwatch](http://www.fda.gov/medwatch).

Volunteer Medical Service Corps of Lansdale is looking for an EMS Chief of Operations to perform duties associated with overseeing employees and volunteers while on-duty and as required during off-duty hours. The VMSC responded to just under 8,000 calls last year in the North Penn area.

The selected candidate will be responsible for the daily operation and financial security of VMSC and reports to the Board of Directors, made up of Volunteer members, and professionals from and throughout the community.

Educational Requirements: The prospective applicants must have a minimum of either a high school diploma or a GED as evidence of completion of a high school education and at least ten (10) years of public safety experience or in a related field with a minimum of five (5) years progressive supervisory experience. Additionally, the selected candidate must possess basic working knowledge of current EMS systems and software related to EMS and the ability to implement new systems as needed.

Certificates, Licenses and Registrations: The prospective applicants must possess and maintain a valid Pennsylvania driver’s license, current certification as an Emergency Medical Technician (EMT), Acceptable Pennsylvania Healthcare Provider CPR, EVOC certification with Pennsylvania EMSVO credential, Hazardous Materials Awareness, FEMA courses ICS-100, ICS-200, IS-700, IS-800, and other certifications as required. Preferred qualifications include PHTLS or ITLS, PEPP, ICS-300, ICS-400, and AHA CPR/ACLS/PALS.

Interview: The prospective applicants will be required to pass an oral interview, a pre-employment physical/drug test, criminal history, PA ChildLine and driver record checks.

The selected candidate will be responsible for: The safety and security of all employees and volunteers, building, and equipment owned by the organization; Overseeing daily EMS operations including scheduling, vehicle maintenance, supply ordering, etc.; Representing the VMSC with Municipal, County, State, and Federal agencies; Coordinating EMS billing with the administrative staff; Working in conjunction with our Appointed Medical Director for best care outcomes, ongoing training for staff, clinical trials, etc.; Human resource duties including hiring and onboarding, payroll, separation, discipline, conflict resolution, etc.; Developing and writing policies and procedures; Maintaining employee personnel records, assuring the most up to date information; Anticipating and budgeting for capital expenditures and developing replacement cycles, as well as other duties that are assigned by the Board of Directors.

Salary Range: $90,000.00 to $110,000.00 per year.

Benefits Per VMSC policy.

Prospective applicants chosen for an interview will be able to review the full job description prior to their scheduled interview.

Cover letters and resumes should be submitted to Rick Vetri, Chairman of the Board of Directors of the Volunteer Medical Service Corps of Lansdale via email at: rvetri@vmsclansdale.com on or before October 22, 2021.
Volunteer Medical Service Corps of Lansdale

Job Description: Chief of Operations (Chief)

General Statement of Duties

- The Chief of Operations will act under the direction of the Volunteer Medical Service Corps of Lansdale (VMSC) Board of Directors in collaboration with the Administrative Director.
- He/she will be responsible for ensuring the delivery of organizational goals to achieve the highest quality of pre-hospital care and staff management. This will be accomplished through proactive leadership, effective supervision, and sound management.
- Accountable for the day-to-day operations of the V.M.S.C. in conjunction with the Administrative Director and appropriate career supervisors.
- Recommends changes in operational policies to carry out the objectives of the business more effectively and efficiently.
- Manage the education, discipline, and staffing of career and volunteer field staff.

Duties and Responsibilities

Operations

- Responsible for the daily activities of operations. Schedules activities of the field staff, career, and volunteer, in accordance with the plans developed by the Board of Directors.
- Responsible for training all field staff and ensuring that they have the credentials and ability to respond to emergencies.
- Responsible for ensuring that all field staff treats patients appropriately during emergency calls.
- Investigate citizen complaints about treatment received from field staff.
- Supervises and coordinates scheduling requirements for all field staff.
- Manage and approve all overtime for career field staff.
- Approves Paid Personal Leave Time for all career field staff.
- Attends scheduled Business, Board of Directors, and any special meeting as required.
- Prepares special reports, studies, and budgets requested by the Board of Directors.
- Serves as liaison between area medical facilities and the company for operational issues.
- Responsible to ensure that all company vehicles and medical equipment are operational and available for use in emergencies.
- Serve as leader of committees, approved by the Board of Directors, to acquire specialized medical equipment and emergency vehicles.
- Responds to emergency medical calls as a supervisor, performing necessary rescue work and administers emergency medical care when needed.
- Serve as EMS command, when required and requested by the jurisdictional incident commander, during large scale incidents and emergencies.
- Performs related work as directed by the Board of Directors.

Appointments

- The Chief of Operations will be responsible to appoint Assistant Operation Officers and committees in accordance with the company by-laws and approval of the Board of Directors.
- These appointments may include, and may not be limited to the following:
• Deputy Chief
• Assistant Chief
• Battalion Chief
• Captains
• Lieutenants
• Scheduling Officer
• Supply/Uniform Officer
• Communications Officer
• Driver Training Officer
• Event Coordinator
• Field Training Officer
• QA / CQI Officer
• Fleet Maintenance Officer & Assistants
• Public Information Officer
• Clinical Coordinator
• Clinical care Committee
• Special Operations Officer
• K9 Officers
• Rescue Officers
• Tactical Team members

All appointment shall be in accordance with the VMSC By-laws, Article V, section 7 (e.)

Policies

• Review, develop and ensure staff compliance to VMSC policies, procedures, protocols, and organizational directives.
• Maintain compliancy with Local, State, Federal regulations as it relates to V.M.S.C.’s field of service.
• Review, develop and maintain field staff Standard Operating Procedures.

Planning

• Assist with the development of operations plans that is consistent with the overall goals and objectives established by the Board of Directors.

Fiscal

• Review expenses as they apply to budget categories that the Board of Directors has assigned to the Chief of Operations.
• Purchase supplies, equipment and services, within approved budgets, utilizing the company’s Purchasing and Procurement Policy.

Research and Development

• Responsible for the development and enhancement of new and existing services in conjunction with the Board of Director's Approval.
• Maintain knowledge of existing and projected trends of the industry.

Marketing

• Constantly maintain a high quality of customer service and maintain an enthusiastic attitude toward customer/client relationships.
• Display and promote the highest quality of delivery of customer/patient service to internal and external customers. Undertaking efforts in meeting and/or exceeding customer/patient expectations

**Human Resources**

• Responsible for the overall training, and discipline of all field staff.
• Responsible for performance evaluations and insures that all field personnel are capable of meeting the requirements of the V.M.S.C.
• Responsible for other Human Resource duties as directed by the Board of Directors.
• Participates in the recruitment interviewing, and training of prospective employees.
• Participates in goal setting and performance appraisals for the Career and volunteer field staff, providing constructive feedback and direction on performance. Coaching and counseling as needed on provider performance issues, support and encourage the development of critical thinking.

**Reports**

• Submit formal reports as required or requested by the Board of Directors.

**Relationships**

**Reports to**

• Board of Directors

**Subordinate**

• All Field Staff and appointed operational officers.

**Internal Contacts**

• All levels of management and staff.
• The President, and Administrative Director.

**External Contacts**

• All agencies responsible for health care regulation within the confines of the organization’s activities.
• All contracted and non-contracted hospitals, skilled nursing facilities, and health centers within the organization’s marketing area.
• Other outside agencies / organization(s) as directed.

**Qualifications and Requirements**

The Chief of Operations must meet the following qualifications and requirements at time of appointment and throughout employment in that position. **Knowledge, Skills, Abilities**

• Will accurately, clearly, legibly, and consistently complete all required documentation in adherence to VMSC directives, including but not limited to, personnel matters, patients care reports, payroll, inventory tracking forms, equipment maintenance forms, reports, memorandums, and incident reports.
• Knowledge of medical terminology, Organizational/analytical skills, Independent work skills, The ability to give clear, concise directions by phone or radio, Work efficiently under pressure. Courteous and tactful inter-social skills. Must be able to stand unpopular decisions.
• Knowledge of and demonstrated use of various apparatus and equipment used by VMSC.
• Knowledge of VMSC policies, rules and regulations, orders, SOG’s, and other written standards.
• Knowledge of principles and practices of instructing and training paramedics, emergency medical technicians and other department personnel.
• (Minimum Requirement) Department of Health – Current certification as an Emergency Medical Technician (EMT).
• Current CPR certification.
• EVOC certification with Pennsylvania EMSVO credential and Hazard Materials Awareness.
• Completion of NIMS Curriculum Courses, ICS-100, , ICS-200, ICS-700, and ICS-800.
• Current / Valid Pennsylvania driver’s license.
• Conform to all requirements, as they pertain to the position of Chief of Operations, listed in Article V of the VMSC By-laws.
• (Minimum requirement) Five (5) years of supervising experience at a Emergency Medical Service Agency or related industry, as a Shift Commander, Captain or Chief Officer.
• Anticipates problems and utilizes alternative solutions, if necessary.
• Analyzes problems and adopts quick, effective, and reasonable solutions.
• Leads staff effectively and promotes harmony and cooperation with other career and volunteer staff.
• Efficiently uses major resources such as staff, money, equipment, apparatus, and technology.
• Uses influence and power constructively and appropriately.
• Accepts responsibility for activities of subordinates.
• Remains open to constructive criticism.
• Creates an atmosphere that encourages others to participate in problem solving, creative thinking, and strategic planning.
• Creates an atmosphere where different perspectives, opinions, and positions are welcomed, encouraged, and fully explored.
• Possesses a high degree of skill in interpersonal relations because the VMSC EMS personnel have a great deal of public contact.
• Interacts cooperatively within the organization.
• Accepts and obeys authority.
• Independently has ability to interpret and implement established guidelines while meeting and resolving emergencies without direct supervision.
• Ability to react quickly and calmly in emergencies.
• Ability to effectively lead others, maintain discipline, accept lines of authority, promote harmony, and work cooperatively with others.
• Ability to meet such specific experience, physical, and other requirements as may be established by competent authority.
• Ability to enter data or information into terminal, PC, or other keyboard device such as RMS or MDT.
• Ability to clearly communicate verbally and through written documents with clear, accurate and organized thoughts using proper sentence construction, punctuation, and grammar.
• Ability to effectively supervise the use of equipment through training programs.

**Physical**

• Bending, twisting, squatting, kneeling, lifting, and other repetitive movements.
• Must be able to lift, with the assistance of a partner, a weight of not less than 275 pounds.
• Eyesight in compliance with the standards set forth by the PA D.O.T. for day and night driving and may be corrected with the aid of prescription eyewear.
• Hearing of low and high frequencies is required and may be corrected with the use of hearing aids.

The Township of Upper Moreland, PA, is seeking an experienced, visionary, professional and passionate leader to serve as the Fire Chief. The position responsibilities include serving as the Township Fire Marshal and Emergency Management Coordinator. The Fire Chief, which is a new position, will lead the Township towards innovation and new approaches in Fire Service for the future. Upper Moreland is an attractive full-service community located in Montgomery County approximately 17 miles northwest of the city of Philadelphia, with an estimated residential population of 25,000. The Department covers a response area of 7.98 square miles and operates from two stations. The organization employs 5 career firefighters which includes 1 fulltime Captain, 4 fulltime Firefighters/EMTs and 11 part-time Firefighters. In addition, there is 1 Volunteer Fire Company. The Township provides fire operations and fire prevention services, as well as, support for rescue operations. EMS Services are provided by Second Alarmers Rescue Squad and supported by the department. In 2020, the fire department had a call volume of 842 calls for service.

**Position Summary:**
The Fire Chief is appointed by a seven-member Board of Commissioners who are elected by district to four-year terms. An appointed Township Manager supervises day to day municipal functions. The Fire Chief is a member of the Township’s leadership team and is responsible for the overall operation of the Fire Department and Fire Services, including the management of the volunteer fire company and coordination of all Fire Department activities with other fire departments, public safety agencies and Township Departments. The position responsibilities include acting as the Fire Marshal and EMC for the Township. This is an incredible opportunity for a strong and collaborative senior executive to focus on innovation to improve upon how fire services are provided to the community to achieve the Township’s goals and objectives. Upper Moreland seeks a leader who is innovative who brings new ideas to the organization, offering a unique perspective and experience, as well as, a capability and desire to monitor the forefront of industry advances and adapt those advances for application to Upper Moreland Township. Successful candidates will possess an enthusiasm and focused energy for all projects; a passion for service to the community; expertise and strong knowledge of fire service strategies, operation and innovation and drive for continued learning and improvement; versatility in coordinating, facilitating and managing projects that require involvement across multiple service areas with a balance of trust and delegation; and most importantly dedication to effective leadership to build collaborative and positive relationships with those he/she leads and other staff members inside and outside the organization’s region, along with the ability to build and actively work to sustain and maintain high trust relationships.

**Candidate Profile:**
Desired attributes and experience include: A desire to be a part of a great team of dedicated personnel with the ability to focus on local and regional issues and staffing models. A demonstrated background working with a volunteer department and the understanding of the relationship working with a dedicated, paid workforce as well as a broad spectrum of human resource experience. Thorough knowledge of budget preparation and long-term financial planning. Demonstrated skills in planning and developing annual reports and strategic initiatives. Experience and comfort with personnel administration.

**POSITION REQUIREMENTS:**
- Bachelor’s Degree in Fire Science or related field and has proven experience / knowledge of new fire and emergency management standards and procedures through training seminars, reading, peer networking, and participation in professional organizations.
- Minimum of (15 years combined fire experience as a Firefighter, Senior Firefighter, FAO, Lieutenant, Captain or Battalion Chief; with at least (5) years in a fulltime command position.
- Proven experiences managing a combination paid and volunteer fire department. Experience in fire prevention and investigation and any equivalent combination of experience and training which provides the knowledge, skills and abilities to perform the work. A valid PA Drivers’ license and safe driving record. An equivalent combination of related training, education, and experience may be considered.
- Preferred qualifications include: Certified Chief Officer Designation from the Commission on Public Safety Excellence; Certification as Executive Fire Officer; NFA Incident Command System Certification; Pennsylvania State UCC Certification in Fire Inspection and Commercial Building Inspection; certification in fire investigation; certification for Emergency Management Coordinator; national certification as FF1; Instructor and Hazardous Materials Operations; Certified Emergency Manager (CEM); Certified Chief Fire Officer (CFO); Certified Fire Protection Specialist (CFPS); PEMA Professional Emergency Management Certification; valid medical responder certification; and certifications and training requirements for Fire Chief / EMC / Fire Marshal position.
- The successful candidate hired for this position, by their first Anniversary date, must reside in Pennsylvania. It is strongly preferred that the candidate reside within approximately a thirty-minute response time to the Upper Moreland Township Fire Department. The salary range for the position is $110,000 - $130,000 dependent upon experience and/or qualification; plus, a competitive benefit package.

**HOW TO APPLY:**
For immediate consideration, applicants should submit letter of qualifications, resume and salary requirements to:
