HOW CAN I GET A COPY OF A MARRIAGE RECORD?

In Pennsylvania, the Clerk of the Orphans’ Court Division of each county is responsible for maintaining the records of all marriages in the county where the Marriage License was issued.

In Montgomery County, an individual may obtain a marriage record by either appearing in person at the Marriage License Department or by Mailing a letter of request to the department. All requests must provide the husband & wife’s complete name at the time of their marriage application and the date of their marriage, as well as the appropriate fee.

The Marriage License Department will conduct a search and prepare the marriage record requested only if the Marriage Application was taken in Montgomery County Not in the County where you were actually MARRIED. EXAMPLE: If you went to Delaware County or Philadelphia County (CITY HALL) to apply for your application they will have you Marriage Record on file. If you are dropping off your request to the Marriage License Department, only a check or money order may be left along with a self addressed stamped envelope and we will mail your request within the 24 to 48 hour time period.

If you are requesting a Marriage License before 1885 you should contact the Church where the Couple was married or Philadelphia Archives. All records were kept there before this time period.

An order form to request a marriage record by mail is attached to this brochure for your convenience.
