Unclassified Industry	0	0	0	N/A

^{1/}Asterisks indicate data are not disclosable

- **Top Industries with new hires above year-ago levels** – Social Assistance; Paper Manufacturing; Lessors of Nonfinancial Intangible Assets (except Copyrighted Works); Insurance Carriers and Related Activities
- **Top industries that have new hires below year-ago levels** – Accommodation; Food Services and Drinking Places; Administrative and Support Services; Specialty Trade Contractors

Note: In every economy there is job creation and job destruction every month and the result is employment change. New hires are linked to job creation, however, an increase in new hires does not directly equate to an increase in the total employment count. The new hires count is simply an indication of hiring activity in an industry. Separations, in the form of layoffs, firings, or quits, are linked to job destruction and account for the other half of the employment change equation. The balance of hires and separations result in the employment change.

NEWS OF THE MONTH

New Website

The Center for Workforce Information & Analysis has a new website. Please contact workforceinfo@pa.gov if you have any questions about navigating the website. The address for our site has changed from <http://www.paworkstats.state.pa.us> to:

<http://www.paworkstats.pa.gov>

Labor Marking Information E-Learning Videos

The Center for Workforce Information & Analysis (CWIA) has recorded a series of E-Learning videos to introduce users to the various labor market information (LMI) products and services we offer. Awareness and knowledge of the tools and services we provide will help users make informed policy, business, and career decisions. Videos may be viewed in your web browser.

The E-Learning Videos are available at the new CWIA website.

WORKFORCE INVESTMENT ACT

COMMON MEASURES

3rd Quarter Program Year 2012

WIA Common Measures	Statewide			Montgomery County WIA		
	PA Negotiated Level	Actual Calculated Level	Percent Level Achieved	WIA Negotiated Level	Actual Calculated Level	Percent Level Achieved
Adult Entered Employment Rate ¹	73.0%	70.4%	96.4%	80.0%	95.8%	119.8%
Adult Retention Rate ²	82.0%	84.9%	103.5%	88.0%	94.1%	107.0%
Adult 6 Months Avg Earnings	\$13,000	\$13,881	106.8%	\$13,000	\$13,911	107.0%
Dislocated Worker Entered Employment Rate ¹	75.0%	75.1%	100.1%	79.0%	87.9%	111.3%
Dislocated Worker Retention Rate ²	90.0%	88.4%	98.2%	90.0%	92.3%	102.6%
Dislocated Worker 6 Months Avg Earnings	\$16,500	\$17,122	103.8%	\$19,000	\$23,512	123.7%
Youth Placement	60.0%	61.8%	103.0%	62.0%	80.0%	129.0%
Youth Attainment of Degree or Certificate ³	76.0%	83.3%	109.6%	83.0%	89.1%	107.4%
Youth Literacy/Numeracy ⁴	55.0%	66.4%	120.7%	80.0%	100.0%	125.0%
Number of Performance Measures ⁵ :	Not Met		0	Not Met		0
	Met		2	Met		0
	Exceeded		7	Exceeded		9

Note 1. Adult and Dislocated Worker Entered Employment Rate performance outcomes reflect those exiting WIA programs from October 1, 2011 through June 30, 2012.

Note 2. Adult and Dislocated Worker Retention and Wage Gain/Replacement rates represent performance outcomes for those exiting WIA programs from April 1, 2011 through December 31, 2011.

Note 3. Youth Degree/Certificate Attainment and Youth Placement rates represent performance outcomes for those exiting WIA programs from October 1, 2011 through June 30, 2012.

Note 4. Youth Literacy and Numeracy number for local areas reflects only the data for those who would have reached one year literacy/numeracy attainment date, regardless of date of exit, between July 1, 2012 to March 31, 2013, AND those who remain in WIA, still basic skills deficient, that complete a second year (initial start July 1, 2010 to March 31, 2011) AND that complete a third year (initial start July 1, 2009 to March 31, 2010)

Note 5. Performance on an individual measure is interpreted as follows:

EXCEEDED – The ratio of actual performance achieved to negotiated level of performance for the measure is in excess of 100 percent.

MET – The ratio of actual performance achieved to negotiated level of performance for the measure falls in the range of 80 to 100 percent.

NOT MET – The ratio of actual performance achieved to negotiated level of performance for the measure is less than 80 percent.

COMMON MEASURES DEFINITIONS

Common Measures for Federal job training and employment programs represent one component of the Employment and Training Administration's development of a single comprehensive system to collect, record, and report program performance for workforce programs.

Entered Employment Rate

Of those who are not employed at the date of participation: The number of adult participants who are employed in the first quarter after the exit quarter divided by the number of adult participants who exit during the quarter.

Employment Retention Rate

Of those who are employed in the first quarter after the exit quarter: The number of adult participants who are employed in both the second and third quarters after the exit quarter divided by the number of adult participants who exit during the quarter.

Average Earnings

Of those adult participants who are employed in the first, second, and third quarters after the exit quarter: The total earnings in the second plus the total earnings in the third quarters after the exit quarter divided by the number of adult participants who exit during the quarter.

Placement in Employment or Education

Of those who are not in post-secondary education or employment (including the military) at the date of participation: The number of youth participants who are in employment or enrolled in post-secondary education and/or advanced training/occupational skills training in the first quarter after the exit quarter divided by the number of youth participants who exit during the quarter.

Attainment of a Degree or Certificate

Of those enrolled in education (at the date of participation or at any point during the program): The number of youth participants who attain a diploma, GED, or certificate by the end of the third quarter after the exit quarter divided by the number of youth participants who exit during the quarter.

Literacy and Numeracy Gains

Of those out-of-school youth who are basic skills deficient: the number of youth participants who increase one or more educational functioning levels divided by the number of youth participants who have completed a year in the program (i.e., one year from the date of first youth program service) plus the number of youth participants who exit before completing a year in the youth program.

DEFINITIONS

LABOR FORCE STATISTICS - Source: Pennsylvania Local Area Unemployment Statistics (LAUS).

The labor force and unemployment data are based on the same concepts and definitions as those used for the official national estimates obtained from the Current Population Survey (CPS). The Local Area Unemployment Statistics (LAUS) program measures employment and unemployment on a place-of-residence basis and produces estimates using equations based on regression techniques. This method utilizes data from several sources, including the CPS, the CES, and state unemployment insurance (UI) programs. The LAUS program does not produce estimates for any demographic groups.

Unemployment Rate: The number unemployed as a percent of the labor force.

Unemployment: Unemployed persons are persons aged 16 years and older who had no employment during the reference week (contains the 12th day of the month), were available for work (except for temporary illness), and had made specific efforts to find employment sometime during the 4-week period ending with the reference week. Persons who were waiting to be recalled to jobs from which they had been laid off need not to have been looking for work to be classified as unemployed.

Employment: Employed persons are all persons who, during the week which includes the 12th day of the month, (a) did any work as paid employees, worked in their own businesses or professions or on their own farm, or worked 15 hours or more as unpaid workers in enterprises operated by members of their families, or (b) were not working but who had jobs from which they were temporarily absent. Each employed person is counted only once, even if the person holds more than one job. Included are the self-employed, unpaid family workers, agricultural workers, and private household workers, who are excluded by the Current Employment Statistics survey.

Labor Force: All persons either working or looking for work or classified as employed or unemployed.

UNEMPLOYMENT COMPENSATION - Source: The Pennsylvania Department of Labor & Industry and the U.S. Department of Labor.

Unemployment Compensation (UC): Unemployment Compensation (UC) protects workers against job loss by providing temporary income support to people who become unemployed through no fault of their own. UC Benefits are paid, for a limited time, to individuals who are able and available for suitable work, and are actively seeking new employment. To qualify for UC benefits, a worker must have performed services covered under the Pennsylvania UC Law, and must have worked for an employer who is required by law or elects to pay into the UC Fund.

Exhaustions: Exhaustion occurs when a worker draws the maximum amount of benefits to which he or she is entitled.

CLAIMS - Source: The Pennsylvania Department of Labor & Industry and the U.S. Department of Labor.

Initial Claims: Initial claims measure the number of filings for state jobless benefits. An initial claim occurs when a person files a notice of unemployment to initiate a request to determine entitlement and eligibility for unemployment compensation. A person can file multiple claims. Initial Claims include all applications for a determination of entitlement to unemployment insurance benefits (new, additional, & transitional).

New Claims: New claims are the first applications for a determination of entitlement to unemployment insurance benefits made by an individual in a claim year.

Additional Claims: Additional claims are any application for unemployment insurance benefits for a new period of unemployment within a benefit year after a break in benefits of at least one week due to employment.

Transitional Claims: Transitional Claims are claims filed to request a determination of eligibility and establishment of a new benefit year having an effective date within the 7-day period immediately following the benefit year ending date and a week for which compensation or waiting period credit was claimed.

Continued Claims: Continued claims measure the number of weeks that claimants are requesting payment of unemployment benefits. These claims include "waiting weeks" which do not receive payment, and claims that are subsequently denied benefits.

DEFINITIONS

QUARTERLY CENSUS OF EMPLOYMENT AND WAGES - Source: The Pennsylvania

Department of Labor & Industry, *Quarterly Census of Employment and Wages*.

Employed: Employed persons are all persons who, during the week which includes the 12th day of the month, (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent. Each employed person is counted only once, even if he or she holds more than one job.

Establishment: The physical location of a certain economic activity, such as a factory, store, office, or mine. Generally, a single establishment produces a single good or provides a single service.

INDUSTRY HIGHLIGHTS - Source: *Pennsylvania Quarterly Census of Employment and Wages and the Center for Workforce Information & Analysis Strategic Early Notice Econometric Model*.

The Strategic Early Notice Econometric Model identifies probable companies and industries of importance. There are two types of notices: Early Warn Notices and Early Growth Notices. Early Warn notices are generated for companies and industries that are experiencing significant employment decline. Early Growth notices are generated for companies and industries that are experiencing significant employment growth. The model does not presuppose a cause for a company's decline or growth. Companies are selected based on an algorithmic model.

Early Warning Company: A company whose employment count has declined each quarter over the past year. Only those companies having at least 20 employees at the beginning of the measurement period and having an employment decline of at least 10 percent are identified.

Early Growth Company: A company whose employment count has grown each quarter over the past year. Only those companies having at least 10 employees at the beginning of the measurement period and having employment growth of at least 10 percent are identified.

PA EMPLOYER ACTIVITIES - Source: Based on published media news reports and articles.

Compilation of employers and employment gain or loss may be unconfirmed and incomplete.

NEW HIRES - Source: *The Pennsylvania Department of Labor & Industry*.

New Hire Reporting is a process by which employers report information on all employees hired on or after January 1, 1998 to locate non-custodial parents, establish child support orders, or enforce existing orders. Company and individual data are confidential and cannot be reported on. However, the data can be aggregated to show where and in what industries hiring is taking place as an indication of what sectors of the economy are experiencing growth or decline. Approximately sixty percent of all new hires are captured. New hire counts by industry are an indication of trend only.

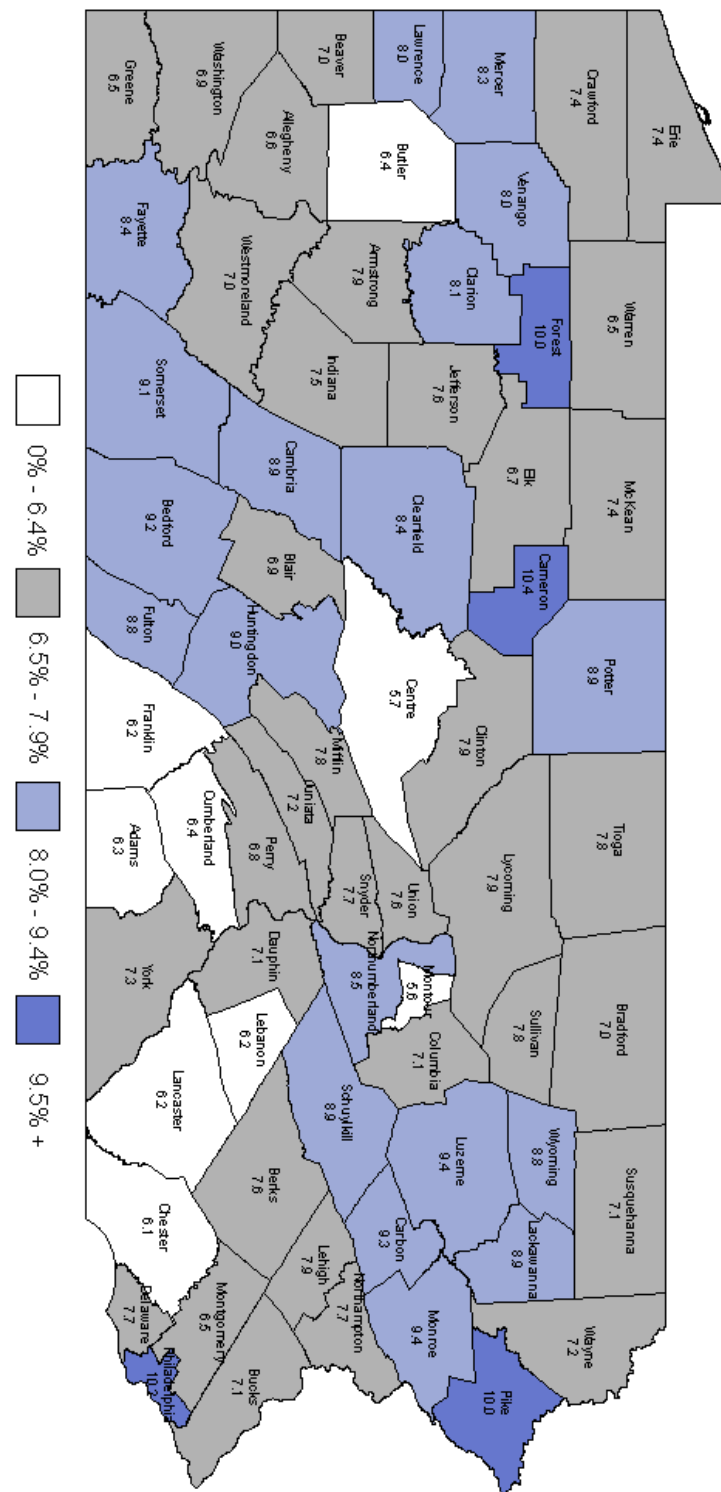

HELP WANTED ONLINE ADS - Source: *The Conference Board Help Wanted OnLine™ data set*.

The Conference Board Help Wanted OnLine data set provides real-time insight into the employment marketplace through the world's largest database of online job ads. Jobs ads can be classified by industry, occupation, employer, and geographic area. Data are analyzed for employment trends and to forecast economic conditions. The underlying data for The Conference Board HWOL are provided by Wanted Technologies Corporation.
