

Community Advocates of Montgomery County

The mission of Community Advocates of Montgomery County is to help people who have experienced mental illness by providing advocacy services which promote recovery through choice, self-determination and empowerment in collaboration with all community members.

We are an advocacy team working together to help adults using mental health services to:

- Resolve problems
- Learn self-advocacy
- Improve relationships

Members of Community Advocates assist people in resolving problems, facilitate workshops on self-advocacy, and participate on relevant committees and boards. We use a team approach to advocacy resolution in order to develop the best outcomes for the problems we address, and to provide learning opportunities and mutual support for advocacy staff. We work with individuals and groups to teach skills that will enhance a person's ability to speak for himself or herself, in a way that fosters recovery.
